Hang All China's War Lords, Says Shipping Leader

SHANGHAI, Dec. 4.—Speaking at a dinner tendered him by the American Chamber of Commerce Captain Robert Dollar, veteran San Francisco shipping man, told the 300 guests that China's ills would best be settled by hanging all of the tuchuns, or war lords, to telegraph poles.

Dollar asserted that the world's trade center is shifting from the Atlantic to the Pacific and the possibilities of future trade in the Pacific is beyond the wildest expectations. He strongly advocated an English-speaking union as a certain preventative of war.

BRITAIN'S VOTERS MOB CANDIDATES

Political Meetings Broken Up By Riotous Crowds In Parliament Race

LONDON, Dec. 4.—Election disorders throughout England and Scotland are increasing, according to advices received here today.

Former Colonial Secretary Winston Churchill was nearly mobbed while making a campaign speech on the outskirts of London. Other candidates were forced to suspend meetings on account of mob violence.

Police are advising candidates to arm themselves before attempting to speak in disturbed areas. Glasgow has been a hotbed of disorder. Men and women candidates were attacked there.

Colonel Spencer Clay, a Tory candidate, was mobbed while attempting to speak at Stonebridge. A stone struck him, slightly injuring him. Threats against the life of H. Hogbin, a Liberal candidate, were made at North Battersea. R. S. Browne, a Tory, was forced to quit speaking at Edmonton, owing to a hostile demonstration.

LOS ANGELES, Dec. 4.—Police today investigated a "warning" sent Rev. Gustav Briegleb, pastor of the Westlake Presbyterian church, to "leave the city within thirty days" or he would be tarred and feathered.

The message, apparently in a woman's handwriting, was signed "The Tar and Feather club." In one corner of the note was a bit of feather stuck in a drop of tar.

Dr. Briegleb declared the warning was not worthy of attention. He brought it to the attention of the police, he said, because of the threat.

WIDENING OF CENTRAL IS FAVORED

Improvement Association In Meeting Makes Plans for Fine Thoroughfare

It was the concensus of those present at last night's meeting of the Central Avenue Improvement association that the avenue should be widened to 100 feet, from San Fernando road on the south to Arden avenue on the north, and that the avenue should be paved as well and an ornamental street lighting syste minstalled, putting it on a par with any thoroughfare of the city.

The meeting was held at the home of Charles Marshall, 525 South Central avenue, and drew a large attendance of property owners on Central avenue, the preponderant majority of whom were enthusiastically in favor of the improvements.

Plan for Canvass

Arrangements were made for a complete canvass of the avenue this week, and a committee was appointed, headed by W. T. Wallace, to have charge of this important work.

The next meeting of the association was announced for next Monday night, December 10, at Mr. Marshall's home, when reports of this canvass will be made.

CRISIS IMMINENT IN MARX CABINET

Ebert to Dissolve Reichstag If New Ministry Is Hurled from Power

BERLIN, Dec. 4.—The Reichstag met today to determine the fate of the new Marx cabinet, which succeeded the Stresemann ministry. Another government crisis was imminent, owing to the opposition of both nationalists and socialists to the new regime.

The new government has been in existence only four days and in that time has not been able to accomplish anything, owing to the fact that it had not been "introduced" to the Reichstag for its approval or disapproval.

It was understood that President Ebert was prepared to issue a decree dissolving the Reichstag if the Marx ministry is voted out of office.

R. B. Creager Already Picked for Ambassador's Post, Reports Declare

Creager is a house guest of President Coolidge at the executive mansion. He has been in conference with Secretary of State Hughes and Senator Henry Cabot Lodge, Republican, of Massachusetts, member of the senate committee on foreign relations, and it is understood that the nomination for the post will go to the senate soon after the new treaties with Mexico are ratified by the senate. TROLLEY CAR IN SIDEWALK CRASH

Panic-Stricken Passengers Fight for Exit; 25 Are Known Injured

PITTSBURG, Dec. 4.—Twenty-five persons were injured, twelve of them seriously, this morning when a crowded outbound street car split a switch and careened across the sidewalk, clipping off a heavy electric light pole at its base.

Windows in the car were shattered and the passengers, panic stricken at the sound of crashing glass and the rend of metal mingled with the cries of the victims, fought each other for the exits in the early morning darkness, trampling those felled or pinned in the car by twisted supports.

Emergency calls were sent to four hospitals and doctors and nurses were rushed to the scene. While they worked extricating the victims, a portion of the damaged electric pole dangled menacingly from the broken wires.

RUM SMUGGLING IS DRY PROBLEM

Liquor Shipped Into America Cannot Be Estimated, Says Daugherty

WASHINGTON, Dec. 4.—Rum running off American coasts is the chief sore spot in the federal government's efforts to enforce the prohibition law, Harry M. Daugherty, attorney general, declared today in his annual report to congress.

The liquor smuggling business is the most gigantic criminal problem the United States has ever faced on the high seas, the report said.

"The amount of liquor smuggled into the United States annually cannot be approximated."

Battle In House Prevents Senate From Doing Work

WASHINGTON, Dec. 4.—The deadlock in the house kept the senate from doing any business today.

The senate met promptly at noon, but adjourned four minutes later on a motion by Senator Curtis, of Kansas, the Republican "whip."

Only a handful of senators were on the floor during the ephemeral session and others continued to struggle in for the next half hour, not knowing that their day's work was done.

REGULAR REPUBLICANS, IN SECOND DAY'S SESSION, NOT ABLE TO RE-ELECT GILLETT

Insurgents Are Split Between Cooper and Madden; Democrats Vote for Garrett; Several Roll Calls Take Place

By A. O. HAYWARD
For International News Service

WASHINGTON, Dec. 4.—The house of representatives was still deadlocked this afternoon over the election of a speaker. The first ballot showed that the regular Republicans still were unable to muster enough votes to re-elect Frederick H. Gillett, of Massachusetts. Adjournment was taken without the deadlock being broken.

The deadlock resulted from the votes cast by insurgent Republicans for Henry Allen Cooper of Wisconsin, and Martin B. Madden, of Illinois, and by the Democrats for Finis J. Garrett, of Tennessee.

The official tally of the first ballot showed Gillett and Garrett tied with 197 votes each, while Cooper received 17 votes and Madden received 5—total 416.

Order More Roll Calls

A second roll call was immediately ordered by William Tyler Page, clerk of the house, who is in charge of the balloting.

The insurgent vote on the first ballot was:

For Cooper — Beck, Browne, Clague, Davis (Minnesota), Frear, Keller, Knutson, Kvale, La Guardia, Lampert, Nelson, Peavey, Schafer, Schneider, Sinclair, Voight, Wefald—17.

For Madden — James, King, Michaelson, Reid (Illinois), Woodruff—5.

The second ballot showed little change. The regulars voted for Gillett, the Democrats for Garrett, and the little group of insurgents split their vote between Cooper and Madden.

The official count was: Garrett, 197; Gillett, 195; Cooper, 17; Madden, 5; not voting, 1. Total votes, 414.

A third ballot was started immediately.

The official count on the third ballot, or the seventh of the session, showed: Total votes, 416; Gillett, 196; Garrett, 198; Cooper, 17; Madden, 5. Not voting, 3.

Adjournment Results

When an adjournment proposal was put forth by the Republicans the Democrats were perfectly agreeable, shortly after the fourth ballot this afternoon.

The four ballots showed little variation from yesterday's four. The Republican regulars were at no time able to master more than 197 votes for Gillett, the Demo-

G. Liebold, vice-president of the Ford road, and secretary of the Detroit automobile magnate, told the commission today.

"The Detroit, Toledo & Ironton is endeavoring to solve some of the problems of railroading by increasing wage rates, thus securing greater efficiency from its employes, and by voluntary reductions in freight rates, rendering better service," Liebold said.

Christmas Plans

Disabled veterans of the World war have a big place in the hearts and plans of the Women's Auxiliary of the Glendale American Legion post, and at the meeting last night in the Legion hall on East Broadway plans were made for bringing Christmas happiness to the nine men and seven nurses at the Barlow hospital in Elysian park, and to the veterans at the Sawtelle hospital.

The Glendale women are hoping to give the Barlow patients and nurses the finest Christmas they have ever had, and any Glendalians wishing to share in this endeavor can do so by contributing jams, jellies and clothing. The names of the boys and nurses will be available, so any gifts can be given a personal touch by designating who they are for.

The Red Cross and Los Angeles District Federation of Women's clubs are interested in the Sawtelle patients, and the Glendale auxiliary is going to help in arranging a basket of fruit and a one-dollar bill for each one of the ex-service men.

At the meeting last night nominations were made and election will be held at the next meeting.

Mrs. E. W. Gilliland, who has been active in the organization, and who is chairman of ex-service men's and women's affairs for the Tuesday Afternoon club, is the only nominee for president. Her choice was unanimous, and she will hold that office following the election.

Other nominations were: Mrs. L. T. Rowley, Mrs. Wilbur Lee, Mrs. Esther Pierce, first vice-president; Mrs. Nellie Snow Hyer, Mrs. H. L. Anderson, Mors. John C. Dunn, second vice-president; Mrs. Gertrude Frug, secretary; Mrs. Charles T. Jones, Mrs. Bertie I. Smith, treasurer; Mrs. Wilbur Lee, Mrs. A. G. Wheelon, Mrs. C. A. Nagel, sergeant-at-arms.

Mrs. Margareat Kaeding, retiring president, will be one member of the new executive committee, and four other members will be chosen from Mrs. L. T. Rowly, Mrs. T. Taylor, Mrs. Nell Few, Mrs. Mary D. Butler, Mrs. Alexander Mitchell, Mrs. C. B. Guthrie, Mrs. H. J. Whittmeyer.

Announce Wedding Plans at Church Choir Practice; Date to Be Fixed

A recent choir practice of the Tujunga Community church was chosen as the time to announce their engagement by Rev. J. U. Stotts, pastor, and Miss Minnie E. Bates, who recently arrived in Tujunga from the east and has been acting as assistant to the pastor. While refreshments were being served after choir practice the members were surprised with the passing of cards, on which the engagement was announced. No date has been set for the wedding, but Dr. Stotts said it would probably be about the holiday season. Miss Bates is a sister fo Mrs. R. W. Everett, who was until recently a resident of Tujunga.

A "progressive" dinner was given Saturday by the Christian Endeavor society. The dinner began at the home of Mr. and Mrs. C. P. White on Monte Vista boulevard and concluded at the home of Mr. and Mrs. I. H. Farr on North San Ysidro street, with stopovers at homes at intermediate points.

Attendance records were broken at the Sunday school of the Tujunga Community church when the largest number in the history of the church attended Thanksgiving services. In the morning Rev. Stotts preached a Thanksgiving sermon. In the evening the choir had charge of the program, which included a soprano solo by Mrs. J. E. Sweet, a vocal duet by Mr. and Mrs. H. J. Jaeger, violin solos by Mrs. A. Adams, and a quartet by Mr. and Mrs. Jaeger, Mrs. Sweet and E. W. Schoch. The choir also sang several numbers.

Over $200 Raised

Over $200 was realized from the sale of articles and an oyster supper given recently by the Ladies' Aid society. This will form part of the $500 pledge the society has made for the building fund of the church addition. The supper netted about $60 and the balance was made from the sale of needlework and other articles made by the members of the society.

Work on the addition to the church is expected to begin soon.

Rev. C. H. Chrisman of Glendale will be the principal speaker at the regular monthly dinner given by the Men's Brotherhood in the Community church basement Tuesday evening, December 4, at 6:30. Other numbers scheduled on the program to follow the dinner are piano solos by Mrs. A. Adams, a reading by Mrs. Leo L. Lang, and vocal solos by Mrs. J. F. Sweet.

Trustees and teachers of the Tujunga school were the principal guests at a get-to-gether banquet given by the staff of the Monte Vista district school at Sunland. Deputy County Superintendent of Schools Upjohn was the principal speaker and declared that he had never heard of such a gathering before in many years of educational work. In addition to the trustees and teachers those present as guests included Wilmot Parcher, former president of the Tujunga board of trustees, B. B. Reynolds, E. A. Miller, D. A. Johnson, Mrs. Upjohn, Mr. Manville, Rudolph Henry, president, and C. C. Campbell, clerk, of the Sunland board.

Principal Creighton of the Monte Vista school originated the plan and was assisted in carrying it out by Mrs. E. A. Miller and Miss Hazel Pestor, teachers. The banquet was given in the domestic science room of the Sunland school and included roast turkey as the chief item, cooked on the new electric range recently installed as part of the school equipment.

Principal Creighton acted as toastmaster. Mr. Upjohn addressed the banqueters and congratulated both Sunland and Tujunga on the improvement in the school work and said that the county superintendent's office has noted the work of principals Creighton and Fred Axe with satisfaction. Brief speeches were also made by Wilmot Parcher, Wallace M. Morgan, president of the Tujunga board of trustees, Principal Axe and Mrs. D. A. Johnson of Tujunga and Mr. Henry C. C. Campbell, Mr. Creighton and Mrs. Miller of Sunland.

Mrs. Bert Begue recently entertained at her home on East Michigan avenue in honor of Miss June Bodkin, daughter of Mr. and Mrs. J. O. Bodkin of Sunset boulevard, Tujunga. Dancing and music were enjoyed and refreshments served. Among those present were: Misses Helen and Winifred Anderson, Goldie Highly, Alice and Marie Kasil, Marie and Mercedes Forster, Loretta Bodkin, Messrs Leigh Sargent, Jack Thieckston, John Jones, Jerry Fasoli, Joseph Malloy, Nat and Jerry Zitto, James Johnson and William Pond.

Reports by the committees on food sales that are held regularly every second Saturday at Legion hall by the Tujunga Woman's Club show that each sale adds from $20 to $30 to the building fund for a club house. A contest between two sections of the club will be held in the sale of cooked food between now and the end of the club year. The winners will be the guests at the annual picnic in June. The next meeting of the club will be held Thursday, December 13, at Legion Hall.

Dr. Keeler of the Higher Thought College of Tujunga has transferred his classes to Los Angeles temporarily owing to the scarcity of suitable quarters for students.

BURBANK

GO TO CHURCH, IS PASTOR'S DECREE

Methodists Urge Month of Atendance; New Drill Track Being Laid

December is to be a month of church-going for Methodists, is the decree of Rev. H. O. Simmons, pastor of the local church of that denomination, and all non-church members as well are urged to take advantage of the month.

With many special programs arranged and all societies of the church, both adult and juvenile, co-operating to make the "go to church" month a success, it is felt that the services will be particularly attractive.

On December 16 the orchestra of the First Methodist church of Los Angeles will assist in the evening service, Rev. Simmons states, adding:

"All branches of the church work will be emphasized with the idea of gaining ground for the kingdom of Christ. In the Sunday school division the effort will be made to secure an additional 100 names and also bring the average attendance to the 400 mark.

"An effort will also be made to add a member a day to the church during the 31 days of December, thereby bringing the church membership very close to the 500 mark. The Epworth League society, representing the young people of the church, is making an effort to outgrow their assembly room, rivalry being created by a contest of attendance between some of the young men's and ladies' classes."

New Drill Track

Southern Pacific surveyors are now setting stakes for the new drill track which is to pierce the Fawkes industrial tract on Olive avenue.

The plan is to have the track leave the main line, just east of the depot, about half-way between Olive and Orange Grove avenues. Commencement of the work has been expected for some time, and it is with genuine satisfaction that the city sees the project under way at last.

Ties, rails and switch "frogs" are already on the ground. Where the track crosses the "draw" it is expected there will be considerable grading necessary, otherwise the fill is not great.

It is understood that the G. M. C. Grease company is ready to install machinery, and will be in a position to untilize the drill track immediately upon completion.

Large Plant Closed

So insistent has been the urge of the local Chamber of Commerce upon manufacturers to locate plants in this city that E. O. Parks and C. R. Smith selected Burbank as the seat of their operations and installed a very formidable array of machinery in a private residence at the corner of San Jose avenue and Third street, and forthwith proceeded to manufacture their wares, which they were able to dispose of without the aid of advertising, owing to the popularity of the product in certain quarters.

That this highly successful plant is not running today is due to the diligence of the Burbank constabulary, who found the product to be in conflict with the expressed desires of Mr. Volstead and his adherents. In short, this concern failed to take up with the Chamber of Commerce in advance the matter of their contemplated industry, a step which might have saved them considerable capital invested in the business, in addition to fines of $400 each.

The product of the ill-timed industry purported to be "Gordon's Dry Gin, bottled by Gordon's Dry Gin Co., Ltd., London, England, and New York, U. S. A." In addition, the haul made by Chief John H. Long of the local police department and his deputies included a ten-gallon demijohn half-full of brand new whisky, three barrels of mash, together with copper coils, kettles, garbage cans, a loaded rifle and an automatic pistol.

From which it is seen that even in Burbank, not every industry prospers.

HOUSE FAILS TO SELECT SPEAKER

Adjourn Again Results With No Election; Business Is Being Held Up

(Contiuned from page 1)

crats could not show more than 198 for Garrett and the insurgents split their vote as they did yesterday, 17 for Cooper of Wisconsin, and five for Madden of Illinois. This prevented either side from getting within ten votes of the required majority.

Business Held Up

Meanwhile, of course, no bills can be introduced, no business transacted, no committees appointed—and the country is confronted with the spectacle of President Coolidge wanting to send two important communications to congress, but finding it impossible for the reason there is no congressional organization to receive them.

The senate is as helpless as the house because, without the house functioning the senate cannot either, except in a routine and desultory fashion.

About 1,000,000 tons of fiber was made from the roots of a plant called "molinia," discovered on a river in France, and will be used to replace wood for packing fruit, and paper making.

CANDIDATES TRAILING JOHNSON

Hiram Forces G. O. P. Aspirants Into Open

At the top, Gifford Pinchot (left) and Hiram Johnson. Below, Frank O. Lowden, James E. Watson and Robert M. La Follette.

By JOHN T. LEWING, JR.

WASHINGTON, Dec. 4.—When Hiram Johnson, who made California famous before it discovered its climate, æsthetically tossed his sombrero into the oft-remarked presidential ring, he precipitated a crisis in the lives of the thousands of political hangers-on of all shades who inhabit the nation's capital.

The great throngs who are dependent on party political fortune for favor are finding it quite disconcerting to be forced at this early hour to line up, or make a pretense of doing so, under the many banners which have been unfurled by White House hopefuls.

The immediate effect of the Johnson announcement, of course, was to open the way for other candidacies. These men are almost certain to go before the next Republican convention with the presidential bee in their bonnets:

Coolidge in Early

President Coolidge, whose candidacy is certain, and in whose behalf a nation-wide preconvention campaign will be conducted.

Senator Robert M. LaFollette, a quadriennial candidate, who will have the support of Wisconsin and possibly Minnesota and North Dakota.

Senator James E. Watson of Indiana, who will make no campaign outside of Indiana and possibly Kentucky, but whose friends will present his name in the hope that he may prove an acceptable compromise candidate.

Governor Gifford M. Pinchot of Pennsylvania, whose plans are rather indefinite.

Frank O. Lowden, former governor of Illinois, who will conduct a nation-wide preconvention campaign and who is considered a formidable contender for the nomination.

Others whose names may go before the convention in the event of an open fight for the nomination, but in whose behalf it is not expected that general campaigns will be conducted, are:

Senator James W. Wadsworth of New York, Henry J. Allen, former governor of Kansas, and Major General Leonard Wood of New Hampshire.

Others who are regarded as remote compromise possibilities are:

Secretary of Commerce Herbert Hoover, Senator William E. Borah of Idaho and Will H. Hays of Indiana.

Johnson is at the disadvantage of having to put a freshly recruited army of volunteers against the carefully trained regulars of the Republican organization, organized during the three years since the victorious election of 1920. Officeholders are going to be slow to bite the hand that feeds them. Petty bosses will not desert the party meal ticket until they are sure that Coolidge's days are numbered.

Johnson's New Crew

He has lost valuable support in some quarters and gained support in others since 1920. He probably will lose Ralph Beaver Strassburger, a power in Pennsylvania politics and "the angel" of the Johnson campaign in 1920, but will make up for that by the active support of Albert D. Lasker of Chicago, who, it is understood will arrange to finance the Johnson campaign next year.

The first skirmish in the battle-royal will come in South Dakota, on December 4, when the Republicans hold their state proposal meeting, at which they will designate their choice for president. South Dakota has only twelve delegates, but the fact that this is the first skirmish gives it a psychological importance entirely out of proportion to the number of delegates at stake.

Express Rate Boost Is Denied By I. C. C.

WASHINGTON, Dec. 4.—The Interstate Commerce Commission has declined to permit the American Railroad Express company to put into effect increased express rates. The commission held that the proposed increases were not justified.

Twenty-two permits for the construction of new buildings were issued yesterday at the office of Municipal Building Inspecotr H. C. Vandewater at the city hall. They totaled $55,858.

This brings the amount issued thus far in December to $86,708, and the yearly total to $9,308,867, leaving practically only two-thirds of a million dollars yet to be obtained to reach the 1923 goal of ten million dollars. Permits issued yesterday were:

MONTROSE

LEGION TO FORM MONTROSE POST

Plans for Organization By World War Veterans Well Under Way

Montrose is to have an American Legion post, preliminary steps for forming it having already been taken. Application papers have been received from headquarters and all that remains to be done is to organize.

Among those who are actively interested in the plan and working hard for its success are Major Emmet L. Wimple, Frank J. Green, A. E. Baron and Mr. Sullivan of North Briggs avenue. Many men from Montrose and La Crescenta have been attending the meetings of the Glendale post, but it has been found that there are enough to maintain a local post, and this will undoubtedly prove more satisfactory.

Community Singing

Another attempt is to be made to organize community singing in Montrose. A meeting has been called for Friday evening, December 7, at the Montrose schoolhouse at 8 o'clock. A program has been arranged and the attendance will determine the interest taken in the sings and whether or not one will be a success in Montrose.

Miss Bessie Brown of Montrose recently entertained in honor of her father, L. T. Brown, formerly of Scranton, Pa., in honor of his birthday. It was Mr. Brown's seventy-sixth anniversary. Miss Brown was assisted by Mrs. Maude Phillips of Glendale. Guests included Mr. and Mrs. Alfred Perry of Glendale, Mr. and Mrs. Frank Madigan, Mr. and Mrs. Charles Perry, Mr. Arthur Leonard of Hollywood, Mrs. Van Housen and niece, Miss Meredith Brown, and Mr. and Mrs. R. E. Brown, also of Glendale.

Frank Turner has gone to San Francisco to be with Mrs. Turner until she has sufficiently recovered from her recent illness to return to their Montrose home.

Dr. Wendell O. Gregg of Los Angeles has rented the McNevin house on Montrose avenue, recently built by F. L. Howard, and expects to practice medicine there.

Workman Injured In Fall From Building

David Mylen of La Crescenta was seriously injured this morning at 10 o'clock while working on the addition to the Montrose Drug company's building at Montrose.

He was working on a ladder and in some manner slipped and fell. An ambulance was called and he was rushed to the Glendale Sanitarium and Hospital, where an X-ray was taken. It is feared that he has suffered severe injuries to his back.

Head Of Exchange Is Asked to Explain Grounds for Charge

Seymour Cromwell

President Seymour Cromwell of the New York stock exchange recently appeared before the grand jury in New York city to "follow up" legally charges he has made repeatedly that "office holders" have hampered the exchange's efforts to clean out bucketshops and dishonest houses by demanding huge "retainers" from certain "bucketshops" for protection. These "political pirates," Mr. Cromwell charges, promise to prevent passage of stringent laws at Albany if the brokers "come across."

AMERICAN OPERA TALENT DROWNED

Spend Too Much Time After European Stars, Says Chicago Singer

CHICAGO, Dec. 4.—Drowned in the hum, buzz and roar of the big cities and in the croaking of frogs in the country, are operatic voices every bit as good as those in Spain, Italy, France, Germany, Austria or Hungary.

Such is the conviction of Myrna Sharlow, Chicago Civic Opera soprano, discovered by the noted Campanini, who told interviewers that America was so busy rummaging around in Europe for its opera talent that it couldn't see the wealth of material it had under its very nose.

She imparted the confidence in telling why she hoped some day to acquire a million dollars. It is not that she yearns for diamond studded motor cars, or palaces too good for kings. Miss Sharlow would use such wealth, she said, to search for talent among budding young American artists, who must endure slavery to earn the means of acquiring artistic education and finish. She fancies she would establish an endowment fund which would pay overdue rents and buy necessary shoes for students.

"America is rich in talent," she said in an interview. "There are thousands of young people of artistic bent, longing for careers to which their gift entitles them, yet broken in the day's fight for bread and clothing.

"Everywhere you see people of promise ruining their health as they try to make a living and at the same time study for a career."

That is not her imagination, either, that pictures these things. She is familiar with America by virtue of Kentucky birth. Miss Sharlow knows Europe, too. She returned recently to the Chicago Opera after three years abroad, most of which time was spent on the Island of Capri. From it she commuted by boat to Naples for her studies. She has spent four years with the Chicago Opera Company.

IRISH GREAT AID TO CIVILIZATION

Intellectual Genius Ruled Whole World During Four Centuries

COLUMBUS, Ohio, Dec. 4.—Assertion that much has been contributed to civilization by Ireland, was made by Dr. James J. Walsh, of New York City, historian, in an address here.

"For more than four centures—from the fifth to the ninth—the intellectual genuises of Ireland dominated the whole world," declared Dr. Walsh. He pointed out that the fall of the Roman Empire immediately preceded this period.

"The Irish, isolated from Roman influence, and just previously converted to Christianity," continued Dr. Walsh, "were the people who then took over the development of civilization, unaffected by the influence of barbarians who overran the rest of Europe."

Red Riots Result In Many Dead, Wounded

BERLIN, Dec. 4.—Violent red riots in which some persons were killed and many wounded, were reported from the Ruhr and from Saxony today. Fighting broke out at Leipzig, Muelheim and Bochum.

SEEK PERMITS TO DANCE TILL 3 A. M.

'Wampus' Frolic May Be Held In San Francisco If Authorities Refuse

BULLETIN

LOS ANGELES, Dec. 4.—The police commission this afternoon refused to grant the Western Motion Picture Advertisers' association, known as the Wampus, a permit to hold their annual 1924 frolic and dance until 3 a. m., after Carmel Myers, Helene Chadwick and Patsy Ruth Miller, film actresses, appeared before the commission and demanded a reply within forty-eight hours whether or not the dance could be prolonged after midnight.

LOS ANGELES, Dec. 4.—The dancing-past-midnight controversy in Los Angeles took on added interest today when three motion picture stars, Carmel Myers, Helene Chadwick and Patsy Ruth Miller, appeared before the police commission and presented a letter or petition from the Western Motion Picture Advertisers' association, known as the "Wampus," asking that within forty-eight hours they be given an answer, one way or the other, whether or not they will permit the 1924 Wampus frolic and ball to be conducted until 3 a. m. The Wampus expect to hold their annual affair some time early next year, it was learned.

It was learned from Wampus members who attended the meeting that, should the commission refuse their request, they probably will hold their annual dance in San Francisco.

A number of ministers also appeared at the meeting today when it was learned that the commission was to take action on a number of applications for dance permits.

All Glendale Roots For Local Eleven To Defeat Long Beach

CARDINALS READY FOR BIG BATTLE

Glendale Prepares to Take On Long Beach Eleven Next Saturday

The acid test for the Glendale varsity football squad will come next Saturday when the Red and Black clashes with the Jackrabbits from Long Beach, to decide which is the champion team of Southern California for the year of 1923.

Fighting their way to the Central League championship by plowing through opposing lines of much heavier weight, while keeping the footprints of enemy backs away from their own goal line, Coach Hayhurst has twice led his men to post-season victories over San Bernardino, champions of the Citrus league, and Santa Monica, winners in the Bay league schedule, by the score of 15 to 10 and 27 to 0, respectively.

Locals Smash Line

To say that Santa Monica's poor showing last Saturday was a surprise is putting it mildly. According to the advance dope, the coast team ranked very well in comparison with the winners in other leagues, yet the Dynamiters scored almost at will. Glendale broke through the line time and again for good gains, circled the ends almost at every attempt, and Santa Monica's kicking was the poorest seen in a league game this year.

With several Long Beach scouts in the stands, Bud Elliott showed wisdom in winning with straight football. Trick plays which had been developed for use in case of necessity, to gain the victory, were left undiscovered, and the Jackrabbit representatives went home without gaining much of a line on the trick formations which Coach Hayhurst has developed.

Not a One-Man Team

The impression seems to prevail that Glendale has a "one man" team, and that Howard Elliott is a grand player, it is true, but it is doing the other members of the backfield a grave injustice when he is given all the credit for the victories. Walton easily was the star ground gainer of Saturday's game, going through tackle no less than six times for gains of twenty yards or more. Ryan and Bud Elliott also made lots of yardage, and while Elliott, perhaps because of his kicking and passing, does more the line, the Red and Black is in work than his companions back of no sense built around this star full back.

The work of the line men is also very apt to be overlooked. Coach Hayhurst's line charges harder than any other we have seen this year. In most games they are outweighed, but he has taught them how to use their hands on defense, and above all, to follow the ball. Very few fumbles but what are recovered by the Red and Black. This is a very important factor in a close game, and by some it is called the "breaks," but those who know football are aware that the team that follows the ball is the one that is in a position to take advantage of the breaks.

Squad in Good Shape

All the regulars will be in the lineup next Saturday, providing they meet with no serious accidents this week.

Captain West, who played part of the game last Saturday, will be in the best shape he has been for over a month, and Lavelle's hip will be O. K. It is doubtful if Fish will be uniform, but Zahn will be able to take care of the center's job.

Light scrimmage and signal practice will occupy the attention of the squad this week. It is probable that no new plays will be attempted, as those perfected for the Santa Monica struggle were not used and will be available for the Long Beach game.

Fly-Weights to Battle

While the varsity squads are fighting it out for supremacy, the 110 pounders from Glendale and Long Beach will stage the curtain raiser, with the championship of Southern California for their weight, at stake in this game also. It is the first time in the history of Southern California when two schools have furnished the runners-up in two divisions, for the championship. The youngsters, while lacking the driving power of the varsity squads, always put up a good fight, and will draw their quota of rooters, just the same as their "big brothers."

The time of the game and the admission price, together with the announcement as to where tickets may be purchased, will be announced later.

Lynch Winner Over Coulon by Knockout

NEWARK, N. J., Dec. 4.—Joe Lynch, bantamweight champion, and greatest in and outer of pugilism, flashed the stuff that gained him his title, in scoring a knockout over Eddie Coulon of New Orleans, in the third round last night. Coulon carried the opening round, staggering Lynch with a left to the jaw, but thereafter the champion was master. He dropped Coulon with a right to the jaw in the third.

Davey Bancroft Is Oddity In Baseball; Speed Merchant, But Can't Steal Bases

I WISH THEY'D GIVE ME SOME HARD CHANCES
SLAP
NOW RUN ALONG DAVE AND PLAY HARD LIKE A GOOD BOY
RANKS AS ONE OF GAMES GREATEST FIELDERS
DAVE BANCROFT
BEGAN HIS BIG CAREER BEFORE HE WAS SEVENTEEN
C'MON PAT I GOT HIM
PENNANT
HELPED MORAN GRAB A PENNANT FOR THE PHILLIES IN 1915

By NORMAN E. BROWN

Dave Bancroft, latest addition to the managerial ranks in big leagues, is an odd bit of baseball machinery.

And here is where the odd part comes in.

He is one of the fastest men in the game.

He is one of the brainiest in the biz.

He can read opposing pitchers and batters as well as any man in the game.

But with all these attributes he is a poor base stealer.

For the last four campaigns he has been a .300 hitter—he fell one point short in 1920—but he has stolen but half as many bases as the other fleet-footed men in the two leagues who batted .300 or better.

Afield he compares with Walter Maranville and Charlie Hollocher and other brilliant shortfielders in speed and hitting. But he cannot rank with them in stealing.

For instance:

In 1920 in 150 games he stole but 8 bases while batting .299.

In 1921 he played in 153 games, batted .319 and stole but 17 bases. The next season he batted .321 in 156 games and stole one less base.

Last season, according to unofficial figures, he stole about 8 bases in 10 games while batting a couple of points over .300.

Bancroft becomes a manager at thirty-one. He has been in baseball fourteen years, however, as he started playing professional ball with Duluth in the Minnesota-Wisconsin league a few days before he was seventeen.

He broke into the big show in 1915 with the Phillies and his brilliant work at short that first year was one of the main reasons why Pat Moran was able to shock the baseball world by copping a pennant.

Bancroft remained with the Phillies until McGraw swapped Art Fletcher and Pitcher Hubbell for him when the pennant seemed near in 1920. Bancroft played an important part in the flag fights of the next season and the two following. Illness kept him from the game a time last season, however, and it was the showing of Travis Jackson at short while Dave was sick that convinced McGraw the youngster was ready to take his place.

Bancroft's hitting in the last world's series fell off, also.

NAVY TEAM WILL TACKLE HUSKIES

New Year's Day Contest Will See East-West Game on Pasadena Field

SEATTLE, Dec. 4.—Members of the University of Washington football team late yesterday afternoon voted in favor of playing a post-season gridiron game with the Navy eleven at Pasadena on New Year's day, according to an announcement made by Captain-elect Ed Kuhn.

This action moved the negotiations another step forward. The faculty athletic committee of the University of Washington will formally act on the proposal that the Huskies play Navy at a meeting scheduled for this afternoon.

Navy Squad Training

ANNAPOLIS, Dec. 4.—Indication of the confidence here that the proposed trip of the Naval Academy football team to Pasadena for the football game on January 1 would not be abrogated was given today when the football squad renewed the practice which had stopped with the game against the Military Academy in New York last Saturday.

While as yet there has been no official announcement that Washington will take the place of California as the opponent of the Naval Academy, it is taken for granted that if Washington accepts promptly the Naval Academy will have no objection to the substitution. Any hesitation or delay, however, may jeopardize the game, as the Navy does not wish to be in the position of having an opponent drummed up to meet it.

RUSH FOOD TO HUNTING PARTY

Party of Ball Players Held Up by Flood Waters In Imperial Valley

LOS ANGELES, Dec. 4.—Supplies were en route today to a point ten miles northwest of West Moreland, Imperial valley, where the New river empties into the Salton sea, for a party of Los Angeles baseball players who were there duck hunting and have been marooned since Friday by flood waters which surrounded them after a cloudburst, according to word brought here.

The party consists of Eddie Maier, owner of the Vernon baseball club; William Essick, manager of the Vernon team; four players, Howard Lorenz, Bob Meusel, Arnold Boekel, Harry Hannah, and Dr. and Mrs. A. Sorenson.

News of the stranded party was brought here by Dr. and Mrs. Sorenson and Bill Essick, who waded out while the others remained on guard with their half submerged automobiles.

FOOTBALL SQUAD ARE ENTERTAINED

Edwards & Dennis Are Hosts to High School Players At New Restaurant

Prefacing their clash with Long Beach Saturday for the championship of Southern California and attesting the hearty support of local business men, the Glendale football men were the dinner guests last night of the Chateau de Qualite, 108 East Broadway, at a special spread prepared in strict conformity with regulations laid down by Normal C. Hayhurst, coach.

With the squad, representing the picked material of the Glendale Union High school, were George U. Moyse, principal; A. L. Ferguson, vice-principal; Normal C. Hayhurst, coach; H. L. Butterfield, assistant coach, and Robert Kolts, trainer.

Enthusiasm and confidence that Glendale would capture the championship on Saturday pervaded the dinner, which was declared excellent, despite the fact that training regulations put the ban on many delicacies.

Guests at Theatre

Following their gathering around the festive board the squad journeyed to the Glendale theatre, where they were the guests of Manager William A. Howe at the showing of the William Fox picture, "Cameo Kirby," now running there, an adaptation from the stage success of Booth Tarkington and Harry Leon Wilson.

The players later returned to the Chateau de Qualite, where the proprietors, Messrs. F. M. Edwards and G. B. Dennis, set them up to chocolate ice cream molded in the shape of miniature footballs.

The following members of the football squad of the Glendale Union High school were present: Ronald West, captain; Richard Ryan, Leslie La Valle, Donald Dietrich, Harry Murphy, Cecil Zaun, Clayton Phillips, Cyril Walton, Howard Elliott, Eric Bradner, Masuri Horii, Arden Gingery, Jack Offutt, Angelo Brucker, Carl Denny, Lewis Dodson, David Elliott, Marion Morrison, Ervin Carver, Hugh Mauer, Charles Fundie and John Parker.

SAILORS DUE TO DISPLAY ACTION

Lads Come Ashore to Fight Under Auspices Local Athletic Club

By AL DIX
Of The Evening News Staff

A landing party from the Pacific fleet at San Pedro, headed by Sailor Verhouse of the U. S. S. Mississippi, will invade Glendale tonight. They expect to engage the enemy at 8:30 o'clock in Hahn's auditorium when the bos'n pipes "Action." There will be no indiscriminate fighting, however, as each invader already has his opponent selected for him, who will endeavor to repulse each individual attack without calling on the reserves.

The affair is under the auspices of the Glendale Athletic club. In other words, they have carded four of the best scrappers of San Pedro to show their wares before Glendale fans tonight.

Gobs Always Popular

What a sailor lacks in finesse, he makes up in grit, and for that reason they are always popular with the fans. This was illustrated at the local club two weeks ago, when Jack Thompson, who fights the semi-windup tonight with Eddie Matthews, was clearly outpointed at every stage by Speedy Sparks. Yet Thompson kept coming, and received a great hand as he left the ring. He absorbed a terrific lot of punishment during the four rounds.

In the main event the U. S. S. Mississippi crack, Sailor Verhouse, meets Roy Edwards, the Lankershim 158 pounder. This is the fight for which the fans have been waiting for some time, and they expect to see four of the fastest rounds fought here this winter.

Look for Big Noise

Many of the wise ones, however, expect the fight between Packey Flynn and Sailor Troop or Jack Carr and Sailor Ratena to be the sensation of the evening. Not much is known of Troop's ability, but Packey will make him fight, and he will have to travel to get the decision over the Irishman. Sailor Ratena is announced as one of the best boys of his weight on the Pacific coast. In Jack Carr he is meeting one of the hardest punchers to perform in the local ring. Last week Carr knocked out a boy from Columbia Athletic club in less than thirty seconds. If Ratena wants to mix it, Carr will be right in his element, as nothing suits him better.

Newsboy Once More

Getting away from the sea air, we have Bert Gonzalez, a favorite here, although he fights under the colors of the Los Angeles Newsboys' club, meeting Jimmy Racer, local boy. Gonzalez has showed up his last two opponents, but he is tackling a stiff proposition in Racer, a boy who can sock, as well as receive.

A section has been reserved for the navy admirers of the San Pedro boys, which will lend a little color to the occasion.

FIGHT RESULTS

At Newark—Joe Lynch, New York, knocked out Eddie Coulon, New Orleans, three rounds. Spencer Gardner, Newport, R. I., got popular decision over Bud Dempsey, New York, twelve rounds.

At New York—Lew Hurley, New York, knocked out Leo Huggins, Chicago, fourth round.

At Brooklyn—Charlie Goodman, Brooklyn, and Joe Ryder of Brooklyn, fought a draw, twelve rounds.

At Troy, N. Y.—Johnny Leonard, Allentown, Pa., won judge's decision over Ruby Stein, New York, twelve rounds.

At Pittsburgh—Harry Greb was awarded decision over Bryan Downey of Cleveland, ten rounds.

At Chicago—Sammy Mundell of Chicago won from Eddie Brady, Brooklyn, in ten rounds.

GAR WOOD QUITS RACING ACTIVITY

Physical Breakdown Causes Inventor to Abandon Motorboat Contest

Garfield A. Wood, commodore of the Detroit Yacht club, and multi-millionaire yacht racer and inventor, who visited Glendale last winter while on the Pacific coast participating in races, has retired from motorboat racing. While in California last winter, Commodore Wood's boats won every race participated in.

Wood's retirement was decided upon as a result of his physician's advice. A nervous strain and general physical disorder made his permanent retirement from the sporting activities necessary, his physician declared.

Among the noted achievements of Wood, who is the inventor of the Wood hydraulic hoist, was his championship races won with his famous Miss America II. He has won many championships with this craft.

Complete Plans for Title Football Game

Principal George U. Moyse, Vice-Principal A. L. Ferguson and J. R. Baker of the high school, met representatives of the Long Beach school this afternoon at the Coliseum in Los Angeles to perfect arrangements for the championship football game to be played next Saturday.

The winner of this game will meet the victor of the Bakersfield-Fresno contest played at Selma next Friday, to determine the high school championship of California for 1923.

JAP NAVY PLANS QUICK COMEBACK

Admiral Tells Damage Done By Quake to Vessels Of Eastern Power

By DUKE N. PARRY
Copyright, 1923, International News Service.

TOKIO, Dec. 4.—The Japanese navy, while suffering with all other departments of the Japanese government, plans to make a speedy return to its pre-earthquake status. While the work on the auxiliary ship program, work on construction of submarines and air craft must be closed down, as a result of the September disaster, and the consequent need for economy in all departments, the actual strength of the Japanese navy has not been dangerously injured by the recent events.

This was the declaration of Admiral Takeshi Takarabe, minister of the navy, who told something of the damage done Yokosuka, Japan's great naval base, in an interview with International News Service.

Will Aid Comeback

"The navy," he continued, "being made up of good sailors, meets the present emergency as good sailors the world over meet the emergency; it postpones some of its work, cuts its budget request for 1923-1924, and hopes that its action may materially help in the post-earthquake comeback of Japan."

Listing the damage done at Yokosuka and at other navy places, Admiral Takarabe pointed out that the damage done the floating power, after all the great power of any navy, had been small. He said:

"As we have notified the Washington treaty powers, the Amagi, an ex-battle cruiser, which the treaty powers agreed might be transformed into an airplane carrier, was so badly damaged in the quake that it has been decided to abandon that ship, and to use for this purpose instead, the battleship Kaga, which, according to the Washington treaties, was to have been scrapped. This ship, with the Naka, a light cruiser, which was practically completed at Yokohama, and was all but destroyed in the fire which swept the docks there, represent the greatest damage done the floating power. At Yokosuka great damage was done to the naval hospital, the greater part of the barracks was destroyed, about one-third of the buildings in the arsenal went, a great part of the food supplies was destroyed, great damage was done the supply station, 70,000 tons of oil were lost and slight damage was done the machinery and tools. I should say that our total loss at Yokosuka and other places will come under 100,000,000 yen ($50,000,000.)"

To Ask $115,000,000

While exact figures as to the requests of the navy for the 1923-1924 budget have not been given out as yet, it is generally understood that the figures will be around 230,000,000 yen ($115,000,000). This represents a huge cut from the original estimates prepared before the earthquake.

"But the navy is glad to stand aside at this time and to hold off on some of its plans, if the Japanese nation is best served by such action," said Admiral Takarabe. "It is quite true that we have made a big cut in our request and I understand that this willingness on the part of the navy has gone far toward solving the most difficult financial problem our government has had to face in some time. If this is true, the navy is glad that it has taken a part in aiding the empire toward a restoration which we all hope will represent a new era in Japan."

Laughs at Jingoes

Discussing the published report at the time of the quake and fire that the United States was prepared to seize the opportunity and attack Japan, Admiral Takarabe smiled at what he called "the expression of the ignorant class, which may be found in all countries."

"Sensible Japanese know the United States too well for that," said the minister of the navy. "Even if the quake had come at a time when there was less feeling of faith in America than there was at this time, as there has been ever since the Washington conference, the Japanese people knew that no nation, at this advanced period in civilization would take advantage of disaster to make conquest. Instead the friends of the United States saw their faith justified by an expression from America of the greatest act of humanity and help in time of need that this nation has ever seen from another great power."

WHITE HOUSE UNSAFE

WASHINGTON, Dec. 4.—An appropriation of $400,000 to reconstruct the interior of the White House has been recommended to Congress by Major General Lansing H. Beach, chief of army engineers. General Beach said that a study of the executive mansion indicated a condition "which renders the building unsafe, both from the standpoint of security in the structural features and the fire hazard prevention."

Greatest stamp collection in the world is that of M. La Renotiere of Paris, who began it about1864.

Appraisers O. K. Price On Veterans' Hospital

EXCELSIOR SPRINGS, Mo., Dec. 4.—Unanimous approval of the sale of the house and grounds of C. L. "Liv" Morse to be used for a veterans' hospital was given today by the special appraisement committee which has been in session since Saturday.

The decision to approve the sale of the Morse property to the government came after an all-night session.

Several local business men, including realtors, had testified in favor of Morse and the transaction, appraising the property for which $90,000 was paid by the government, at an estimated value of between $80,000 and $100,000.

The appraisement committee was brought here following testimony given in the probe at Washington which made it appear that the price paid for the property might have been excessive.

Board Rejects Plan To Review Findings

WASHINGTON, Dec. 4.—The Interstate Commerce Commission has turned down the proposition of the national conference on valuation of American railroads, headed by Senator La Follette of Wisconsin, asking that the commission review all its findings under which existing valuations were fixed.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Advertisement.

THEATRES

THE GLENDALE

"Cameo Kirby" is a story of the old pre-war South, written by those two master story tellers, Booth Tarkington, author of "Penrod," and Harry Leon Wilson, author of "Bunker Bean." As a stage play it enjoyed an immense New York success. Its film career promises to be even greater.

Picture banjos strumming on the lower deck of a Mississippi river stern-wheeler, paddling down from Cairo to New Orleans; a yellow moon over the clay banks, casting wierd reflections in the oily water; night birds calling on the banks. In the cabin, oil lamps throwing dark shadows on sickly faces of men playing at cards; the atmosphere tence with strain as riches hangs on the turn of a card; a shot, a dead man—and down in New Orleans a woman waiting.

Such in brief is the outline of "Cameo Kirby," the William Fox picture of the old South.

THE GATEWAY

"The Gold Diggers" shows at the Gateway Theatre for the last times today, the Avery Hopwood New York comedy produced for Warner Brothers under the personal supervision of David Belasco, with a cast including Hope Hampton, Windham Standing and Louise Fazenda.

All the glamour, all the lavishness, all the screamingly funny situations that marked the stage presentation of this great comedy are to be found in the film version, which was directed by Harry Beaumont. And a prettier group of chorus girls would be difficult to find.

"The Gold Diggers" digs deep into public favor, telling as it does the story of a group of chorus girls who spend their time off stage in extracting money from their gentlemen admirers "without giving adequate return therefor," which is known as gold digging.

Deficit Revealed In Government Finances

WASHINGTON, Dec. 4.—Government finances for the first five months of the present fiscal year today showed a deficit of $82,887,648, the treasury department announced today. The total revenues of the government for that period have amounted to $1,398,773,158, while the expenditures chargeable against ordinary receipts, and including public debt operations, have totalled $1,481,660,806.

Treasury officials said that at the close of December a substantial surplus will be shown for the six months through large increased tax payments expected on December 15.

URGES FILMS BE MADE IN BRITAIN

American Producer Declares London Logical Center of Movie Industry

LONDON, Dec. 4.—Hollywood may have to move to London if all the predictions made by John D. Williams, an American film producer who is now in England, are fulfilled.

"London should be the very center of the film industry," Williams told the English upon his arrival here. "There is no country in the world so favorably situated for film producing as England.

"If your story takes you to Paris, Berlin or Rome in the different scenes you can be in either place within a few hours and have the film back in the studio the day afterward. Your history, your old customs, why, they provide scope for millions of feet of film and every film really good.

Atmosphere is Right

"People say that atmospheric conditions in England are not good for film work. That is stupid. Pictures can be taken here as well as anywhere if there is a properly trained electrical staff, with proper equipment. A Charlie Chaplin picture—and Chaplin is an Englishman—could be taken in England as well as anywhere.

Williams then proceeded to tell why England is not setting the pace in motion-picture production. The reason, he says, is because British producers will not spend their money and will not take advantage of the resources they possess.

"There never has been a real 'top-notch' British film," he declared, "and there never will be until British producers go about the business seriously. The British film is not up to standard simply because they do not go about producing in the right way and do not spend enough money or care on the job.

Fine Back Ground

"England has the finest chance in the world, with her history going back a thousand years or more. But her film producers leave it to Americans to come over and exploit it all."

Williams said he intended to produce a picture in England, starting in February, with Rudolph Valentino in the lead. Several famous English castles, he said, are to be utilized in the picture, which is to be of a historical nature.

Pinchot Would Favor Public Utility Coal

HARRISBURG, Pa., Dec. 4.—Creation of a joint anthracite commission by congress with complete regulatory powers over the anthracite coal industry, which would be declared a public utility, is suggested by Governor Pinchot and his proposed plan for a compact of states sent to the governors of thirty anthracite-consuming states.

LA FOLLETTE IN SO. DAKOTA FIGHT

Organization of Farm-Labor Group Reveals Plans of Wisconsin's Friends

PIERRE, S. D., Dec. 4.—While the awaited Ford-McAdoo test in South Dakota's county proposal convention had not yet come this afternoon, proof that the La Follette-for-President backers had organized, materialized when the farmer-labor group named J. L. Putnam, of Timberlake county, their chairman.

Some observers greeted the election of H. J. Bushfield over E. O. Frescoln, for temporary Republican chairman, as a test vote. His victory was achieved with fewer than 200 votes to spare.

Johnson vs. Coolidge

Bushfield is regarded as a McMaster-for-senator man, while Frescoln follows the Sterling standard. McMaster is reputed to be a supporter of Senator Johnson for the Republican presidential nomination, while Sterling is pro-Coolidge.

Carl Vrooman of Bloomington, Ill., assistant secretary of agriculture under President Wilson, delivered the keynote speech at the Democratic convention. He devoted most of his attention to agricultural problems, speaking of the tariff on wheat, the railroad rates for grain movement, and the lack of export demand, which he attributed to the administration's foreign policy.

SCENIC ROAD IN FOOTHILLS, PLAN

Route Through Verdugos Is Urged In Petition for New Water System

The first steps leading to the laying out and building of a new scenic drive for Glendale were taken by the City Council last night, following suggestions made to that body by T. W. Watson, realtor, of 708 East Broadway.

The recommendations were contained in a petition which Mr. Watson presented asking that a water system be installed east of Verdugo road between the reservoir site on Glendale avenue and the southerly line of Sparr Heights.

The proposed road, the line of which is only tentative as yet, will parallel Verdugo road, following the contour of the foothills, leading out again at some point near La Canada. Mr. Watson pointed out that the country through which this road would lead is now being laid out, and that it would not be difficult at this time to get the various subdividers or property holders to donate land enough for a right-of-way, if action were taken at once so that the parties might be informed as to the proposed route of the new drive, but that if matters were allowed to drift until the country had been settled, it would probably never be done.

Will Inspect Route

Acting on his suggestion, the members of the Council, accompanied by City Engineer Ben F. Dupuy, will visit the proposed route this week, and their report will be made public as soon as completed.

Approximately 75 per cent of the property holders affected had signed the petition asking that the city furnish plans and an estimate of cost for a water system for this district, according to Mr. Watson's statement to the Council. The petition was referred to the city engineer and the superintendent of plant and production for investigation and report.

Oratorio Section of Music Club to Meet

The regular weekly meeting of the Oratorio Section of the Glendale Music club will take place tonight at the Glendale Union High school.

There will be a business meeting at 7:30 o'clock, directed by Mrs. Charles A. Parker, and at 8 o'clock John Smallman will direct a rehearsal of Mendelssohn's "Elijah."

English Peeress Labor Candidate For Parliament

COUNTESS OF WARWICK

Paradoxical as it may seem, the Countess of Warwick, English peeress, is a cantitate for parliament on the Labor ticket. The countess, who is sixty-two years old, is an avowed socialist. She will stand for election for the Warwick and Leamington division of Warwickshire.

Student Musicians Busy During Month

The boys' and girls' glee clubs, orchestra and string trio of the Glendale Union High school have been very active during November. They appeared on no less than eight different programs in connection with school, civic and social affairs during that month. In addition, a recital was given by pupils from the piano department.

The glee clubs and orchestra will be a feature of the annual student body variety show to be presented in the auditorium of the new high school building, December 13 and 14.

A group of carolers and readers from the oral expression department will visit several hospitals at Christmas time.

Second Period of Campaign For Big Prize Awards Nearing Its Close

By J. A. MALCOLM
Salesmanship Club Manager

The second period of the big salesmanship campaign is rapidly coming to a close. Just four more days remain in which to get the big credits, for after Saturday the credits take another drop and then the lowest schedule of the campaign goes into effect. The club members who have worked right through the second period, the same as they did during the first period of the campaign, will be the ones who will be right among the grand prize winners when the final day arrives.

Those who fail to make every moment count these days may as well lay aside all hope of winning one of the four grand capital prizes and be contented to win one of the minor prizes. Your competitors realize the importance of this second period and are working with might and main to secure every possible subscription so as to create a good reserve for the final rally.

Crucial Test Here

The crucial test is now at hand. If you ever intend doing anything big in this campaign, do it now. If you fail to win one of the best prizes you will have only yourself to blame, for the workers will be the winners in this campaign and those who work during the remaining few days of this second period will stand the best chance to carry away the grand capital prize. You can be a big winner if you will devote your time and efforts to subscription getting. If you don't have confidence in your ability to get the subscriptions you won't get far, but if, on the other hand, you make up your mind that you are going to do your best and stick to it you will be well repaid for the time and effort spent in getting the subscriptions.

The race will soon be over and this period to a certain extent will tell the story.

Credit Values Drop

After the close of this period, Saturday, the credits given on the subscriptions will be less than ever and those who have any ambition whatsoever to win one of the big prizes should put forth a special effort during the remaining few days to get every available subscription before the second period ends. After Saturday it will be too late to get the big credits on the subscriptions, so make up your mind that you are going to do your best

The Truth About the Sewer Bond Issue

THE ENGINEERS FOR THE GLENDALE SEWER SYSTEM

The city officials have retained Burns & McDonnell Engineering company of Los Angeles, Calif., and Kansas City, Mo., to prepare the complete plans, estimates, specifications and supervise the construction work of the sanitary sewer system. That the public may be informed as to who the engineers are and why they were selected, the following information is given:

The firm was organized over twenty-five years ago by Clinton S. Burns and R. E. McDonnell to specialize in sanitary and hydraulic municipal engineering, consisting of the design of sewer systems, sewage disposal, waterworks and lighting plants and the valuation of public utilities. The general scope and extent of their past work consists of over 500 engagements in 350 cities in 32 states, of which 128 have been on sewer design. Some of the larger cities in the various states where this firm has previously been retained as consulting engineers are: South Bend, Ind.; Springfield, Ill.; Des Moines, Cedar Rapids, Sioux City and Davenport, Iowa; Kansas City, St. Joseph and Joplin, Mo.; Omaha and Lincoln, Neb.; Oklahoma City, Oklahoma; Great Falls, Mont.; Cheyenne, Wyo.; Everett, Wash., and Berkeley, Calif. The firm has a national reputation in its special line of engineering and has furthermore previously served the city of Glendale, having been employed in 1912 under the administration of former City Manager Thomas W. Watson, to make the valuation of the waterworks system when the city acquired the property.

The personnel of the members of the firm is: Clinton S. Burns, graduate of Stanford University Engineering school, member of American Society of Civil Engineers, member American Society of Consulting Engineers; Robert E. McDonnell, graduate of Stanford University Engineering school, member American Society of Civil Engineers, American Waterworks association; Chester A. Smith, graduate of Kansas University Engineering school, member American Society of Civil Engineers; Robert L. Baldwin, graduate of Missouri University Engineering school, member American Institute of Electrical Engineers; Carl F. Lambert, graduate Case School of Applied Science, member American Institute of Mechanical Engineers.

Besides the above members of the firm they maintain a large organization of technically trained and experienced associate engineers.

On account of the wide experience of this firm, specializing particularly in sanitary engineering and having excellent references from cities where they have performed similar engineering engagements, the firm of Burns & McDonnell Engineering Company was selected to design and supervise the construction of the sewer system.

COOLIDGE LAUDS CHURCH WORKERS

Expresses Regret That He Can't Attend National Convention

CLEVELAND, Dec. 4.—A message from President Coolidge was read by Moderator Charles F. Wishart of Wooster, O., at the opening session of the Presbyterian national convention here tonight. President Coolidge wrote:

"Your invitation to the national conference and convention of the Presbyterian church at the beginning of December appeals to me very much. I wish it were possible, which unfortunately it not, for me to meet with the gathering. Your brief outline of the great extent to which the activities of the Presbyterian church in this country has grown is particularly impressive. It is gratifying to know of the remarkable progress that is being accomplished by a church which has always been so devoted to the broadest public and social interests. I wish you would convey my assurances of best wishes to the conference, with my confident hope for the continuance of the splendid work of Presbyterianism in this country and the world."

Increase Authorized In Police Department

Chief of Police J. D. Fraser was authorized last night by the City Council to employ two additional men, one as a motorcycle, and the other as a traffic officer.

The new parking regulations have increased the work of the force to such an extent that it was impossible to handle it with the men now on duty. Hereafter a closer check will be kept on those who disobey the city traffic laws.

HOLD CHILDREN'S AUXILIARY MEET

President's Report Covers Recent Activities of Local Society

The Glendale auxiliary of the Children's Hospital society held its regular monthly meeting at the home of Mrs. F. L. Doggett, 326 West Garfield street, Monday afternoon.

Mrs. Ernest J. Morgan, the president, was in the chair and F. J. Kille, secretary, read the minutes of the previous meeting and of earlier meetings which had not been read. All were approved.

Mrs. Morgan made a very interseting report covering the recent activities of the auxiliary. The salvage donated by Mrs. A. H. Montgomery of the ways and means committee of the Tuesday Afternoon club, following the rummage sale, the report showed, had been taken to the salvage department of the hospital by Robinson Bros. Transfer company, which donated the use of a truck for that purpose; that two dozen and a half new garments, for which the auxiliary furnished the material and Glendale organizations had made, had been delivered, and that for the Thanksgiving linen shower the auxiliary donated a set of towels and $10. This was the gift of chapter AH, P. E. O. A quantity of beautiful flowers, the gift of Mr. and Mrs. Goto, corner of Park and Central avenue, was also taken to the hospital for that occasion. The auxiliary acknowledged the assistance of chapter L, P. E. O., in making the new garments.

A number of garments were cut out under the direction of Mrs. Doggett.

Donations Made

Mrs. Kille reported that $3.40 had been donated the auxiliary from the bottles which had been placed in Roberts and Echols drug store by the hospital society and also reported that the Owl Drug company had granted permission to place bottles there for the same purpose.

Six new members were reported at the October meeting and five at the meeting yesterday.

A number of garments were cut out by the hostess, Mrs. Doggett, who later, with the assistance of her daughters, served tea and cake to the members of the auxiliary.

Everington's Curios Appeal to Burglars

One thief in Glendale has a penchant for curios, according to the story told Chief J. D. Fraser by Colonel J. W. Everington yesterday.

The colonel is building a new house at 1641 Ben Lomond drive, and in the meantime has some furniture stored in the garage there. Yesterday he reported that some one had forced the lock on the garage and stolen several articles, including a tent and an army blanket.

In addition, the intruder took two Moro trays and a couple of Moro brass gongs, which had been brought to this country from the Philippines.

The cup of joy is everywhere, enough for all and some to spare.

INVITE FATHERS TO RADIO PARTY

Broadway Parents Take Keen Interest In Activity of School Pupils

Dads of the Broadway school are organizing in earnest, if the enthusiasm being taken in their various activities is any indication. Besides their social gatherings and business meetings they are securing a number of additions to the school plant, including athletic equipment, landscape work and interior improvements.

Every Broadway father has received a personal letter this week announcing a radio and card party for Thursday night at the Community building in Sparr Heights, and a joint meeting of mothers and fathers for the Christmas program by the children Thursday night, December 13.

In the letter is a plea for contributions for carrying on the improvements planned at the school, and every father is asked to contribute a small or large sum.

The affair this Thursday night is for fathers only and each one attending is asked to bring some of the dads in the neighborhood.

On December 13 the meeting will be arranged by the Parent-Teachers' association, and a fine Christmas program by the pupils will entertain.

Children to Present Santa Claus In Japan

Many Glendale children are working enthusiastically at rehearsals for the Japanese play, "Santa Claus in Japan," to be produced for the first time in Glendale by pupils of the Woods' School of Klever Kiddies on Friday and Saturday nights, December 21 and 22.

Beautiful dances and songs will be featured. The dance of the lantern bearers, in quaint costumes, will be given by Margaret Hudson, Catherine Meade, Phoebe Vanderwater, Barbara Bird, Margaret Graham, Margaret Campbell, Celia Meehan, Catherine Henry and Ethel Jean Fleschman.

Santa Claus himself with his four broomstick fairies, will travel all the way from America to Japan, and will not only give presents to the children in the Japanese play, but will also give a present to every boy and girl in the audience. Keep the dates in mind, December 21 and 22.

Heald Home Entered By Daylight Burglar

W. E. Heald, 308 East Lomita avenue, reported to the police last night that his home had been entered and burglarized some time during the day.

Upon investigation Detective Sergeant Blake found that entrance had been gained through the front door with a pass key. The house had been thoroughly ransacked.

Only several articles of small value were taken.

'Honest Bill of Olive Hill' Will Rule in Kentucky

GOV-ELECT WM. J. FIELDS

William J. Fields, new governor-elect of Kentucky, is known as "Honest Bill of Olive Hill" by his close friends, a title he has carried for years. He headed the Democratic ticket and won by a majority of over 40,000, returning Kentucky to the Democratic ranks after a two-year reign by E. P. Morrow, a Republican.

Voters Should Retain Registration Receipt

Editor The Evening News: If a woman has married since registering she must register again to be eligible to vote at the sewer bond election.

The value to voters of the little slip—the receipt given them at the time they registered—was never more evident than during this special registration for the sewer bonds.

Could the applicant have shown this slip much time would have been saved and the cluttering of the county registration department with duplicate registrations would have been entirely avoided.

All voters in California register anew, beginning January 1, 1924. When they register they will receive a little slip—the receipt of registration. It is good for two years and should be kept handy in a little case in the shopping bag carried by women and in the pocket-case carried by men.

It happens sometimes, as we all know, that names do not appear on the polling list. Gladly the election officers accept the statement of your receipt. This is another value which the little receipt has.

BIG DEMAND FOR SEATS FOR 'OH-HO'

Musical Comedy Scheduled to Be Staged This Week Rouses Interset

With the opening of the box office for reserved seat sale "Oh-Ho" came a day closer to its presentation on Friday evening of this week, the event that has been long looked forward to with such eagerness, as this show is being given for the Tuesday Afternoon club, under the auspices of the ways and means committee, of which Mrs. A. Montgomery is the chairman.

There has already been recorded a very fine sale, but the impression must not get out that there are no good seats left, as every one of the 763 seats at the Tuesday club is a vantage point from which everything going on on the stage can be seen and heard.

Mrs. A. H. Montgomery and her corps of ticket sellers say they are going to sell every one of the seats for "Oh-Ho" for both nights of its engagement here, so it behooves the theatre goers planning to witness this show to make their reservations at the very earliest.

Pronounced Success

The cast is rapidly rounding into shape, and the members are up on their toes to put up one of the finest productions that has been seen in Glendale with local talent. The "Oh-Ho" show has scored such tremendous successes in other cities that it is looked forward to as one of the most important events ever launched locally in theatricals, and, from the city-wide interest in the show, it seems that it is an event that every one is counting on seeing.

The reserved seat sale is being handled by the Sun Drug Company of Glendale. The "Oh-Ho" show will be given on Friday and Saturday evenings, of this week, December 7 and 8.

City Council Votes To Hire Bond Experts

The law firm of O'Melveny, Millikin, Tuller and MacNeil, Los Angeles, was retained by the city council last night to assist the city attorney in the matter of the proposed issue of the city sewer bonds, and to furnish a written opinion for use in the sale of these bonds.

The retaining fee is $500, with a further $2000 additional, due when the bonds are sold.

This firm has dealt with a number of bond issues of this character and its members are among the leading attorneys of that city.

TODAY:—Dowry Stages a "Comeback"; Young Wives Earn Their Own.

By HAROLD D. ROBINSON
For International News Service

SPRINGFIELD, Ill., Dec. 4.—The dowry is coming back in Illinois, but papa doesn't pay it. The modern bride earns her own dowry money.

This strange condition is being forced by several factors which have arisen along with $100 apartments and $400 fur coats.

The marriageable young man has come to realize that the dowry is a very useful institution and not some funny idea of Frenchmen. With daughters that must be kept as fathers have kept them, and with salaries that are dismayed by the task, the young men have to look for help from some other quarter.

Father, who set the pace, ought to come through and help son-in-law whiz past the starting point at daughter's accustomed speed. But by the time the average Illinois father has gotten his daughter ready to give away at the altar, he has nothing else left to give. It is up to the daughter.

And daughter delivers! With her newly acquired earning power she supplies her own dowry. In some cases she has the money all piled up in a neat bank account, which becomes her husband's joint property at marriage, but more often she earns the equivalent of her dowry after marriage.

The number of young women who continue working a year or two after marriage, is increasing. In offices, schools, stores and factories—wherever women are employed—young married women can be seen working out their dowries. Their earnings are "pure velvet," and with the more provident, every penny goes into the bank.

The young husband, whose income hardly suffices for current expenses, is thus enabled to build up a surplus with which to start a home. The couple can easily save enough to make a first payment on a house of their own out of the bride's post-nuptial earnings. They are usually able to buy furniture and sometimes a motor car, which would have been impossible without the extra funds. Many happy homes are being founded through the aid of the new form of dowry that, without it, would be threatened by poverty.

This revived and revised dowry is beginning to make its influence felt in the marriage market. Sane young men, after investigating apartments, rents, property prices and general living costs, are prone to lose their hearts to girls who can contribute something substantial to the marriage contract. The girl with a good position which she is not averse to holding after the wedding, is coming to have a better chance of a quick trip to the altar.

Courting in Illinois as yet, has shown no signs of being reduced to the business proposition that it is in European countries, where the dowry system prevails. Soulful eyes and curly locks still count, but are being crowded by the check-book. No lawyers are employed, and the questioning of the bride about her resources is not yet acceptable, but conditions are forcing lovers to grow more and more practical.

Timely Views on World Topics

"There is not a human being in the United States, either in congress or at home, who knows the policy of the United States with regard to permanent world peace," declared Mrs. Carrie Chapman Catt of New York, American woman suffrage leader in a recent address.

MRS. C.C. CATT

"There is no backbone in any vote for peace that has yet been made in this country. Everyone wants guaranteed peace. Even our legislators are agreed on that one point. When it comes to a matter of definite policy we are afraid to move. We drift. Drifting inevitably will result in more war as soon as the world is in a condition to promote it.

"It is not the fault of Washington that the United States is regarded by other nations as either selfish or timid in her attitude on world peace," declared Mrs. Catt. "It is the fault of the people. We have hounded our president to an untimely death by our criticisms, and another to a fate worse than death. It is time we took the peace load from Washington and settled the question by knowing our own minds. What will we stand for? When we have settled these questions we can take to Washington a policy of the people and know that it will be adopted and put into practice."

Mrs. Catt advocated entering the league of nations in spite of what faults it might appear to have, "rather than stand by timidly ignoring this only existing actual motion for world peace.

"Slogan Meant Nothing"

"When the United States entered the last war it was pronounced on all sides that this was a 'war to end war.,'" Mrs. Catt said. "As a slogan this phrase was used to resign us to the act of entering the strife. Where is there any evidence at the present time that this sentiment still exists?

"No less authority than the armament commission of the league of nations informs us that France today has a larger army than the Germans had at the start of the great war. Exclusive of Russia, there are more men under arms in Europe today than in 1914. When Russia is included the figures show twice as many forces as in 1914.

"If the Germans were barbarians in 1915 and 1916 when they introduced poison gas and air raids, what are the great allied nations of the world today, which are rushing headlong into the building of more chemical plants which can readily be adapted to the manufacture of poisonous gases?"

The United States is no better than the rest in this respect, according to Mrs. Catt. We lead the world in the development of gas warfare and in the construction and preparation for chemical plants, she said.

Too Much Distrust

"There is too much distrust in the world. All nations are telling the world they want peace. All nations are preparing for war."

Mrs. Catt declared that even our school children were educated toward war rather than peace. History texts are full of it, and national songs are based upon war spirit, she said.

"One of our senators once said it was a pity the United States could not decide for itself what its international relations would be. As a matter of fact, the United States can prepare for war all alone if she so desires. If she desires peace she must act with all the nations of the world to that end. The question then appears to be—do you want a war solo or a peace concert?

"Women must play an important part in the bringing about of permanent peace. We must refuse to have wars. It will come in time, but only after a generation or more of work."

John was the son of parents who were sufficiently popular to receive more invitations than they could conveniently accept, reports Tit-Bits. In the course of a general knowledge lesson, the master asked, "Can any boy tell me the meaning of the letters, R. S. V. P.?"

John's hand shot up.

"Well?" said the master.

"It means," explained John, "rush in, shake hands, and vanish pleasantly."

FARM GIRL LURED HUBBY, CHARGE

'Corn-Fed' Damsel Named In Divorce Suit

Mrs. William Weightman and, inset, her husband.

NEW YORK, Dec. 4.—William Weightman III, wealthy grandson of the founder of the Weightman-Rosengarten chemical company, now a $50,000,000 concern, is being sued for divorce by his pretty wife on charges of failing to contribute to her support and contracting a bigamous marriage with another woman, named in her petition.

That she should be forced to drag her domestic troubles into court and thus confess to the wide wide world that her romance with Weightman has been blasted is bad enough, points out Mrs. Weightman, a dainty, fashionable and attractive little lady.

But what makes it even more humiliating is that Weightman was made to forget his marriage vows and his duty toward her by a simple country maiden of Oswego, N. Y., the wife says.

Mrs. Weightman names the country girl in her charges and says that Weightman, after a fervid courtship, married the young lady two years ago and since then has paid no attention to his first wife.

"Which should be a warning to other wives," adds Mrs. Weightman, "that all the corn-fed girls don't spend all their time putting marcel waves in the cow's tail."

OUR OWN DAILY SHORT STORY
The Last Straw

The night was dark, and Robinson, who lives in New York, seemed to have been driving his car around in circles for hours. He hadn't the foggiest notion upon what appeared to be a signlost his way completely.

Robinson felt very bitter toward the world. At least he came where he was; in fact, he had post, though he could not see what was written upon it.

He fumbled in his pockets and eventually brought out a box of matches. Luckily it contained a match—just one match and no more.

Slowly he proceeded to climb the post; and at the top, anxiously and carefully, he struck the match.

What he said then cannot be printed. The flickering glare of the match showed these three words: "Try Tinker's Tablets."

If there is anybody in the United States who has not written a book this year, he should remember that he has only three months left.

One thing we have never been able to understand is why "delicatessen" costs twice as much as the same things bought in a grocery store.

Uncle Wiggily Bedtime Stories

— BY HOWARD R. GARIS —

UNCLE WIGGILY AND THE FLY-AWAY LEAF

Once upon a time Nurse Jane said to Uncle Wiggily in the hollow stump bungalow:

"Oh, Uncle Wiggily, day after tomorrow is Thanksgiving, and we ought to have the house decorated up a bit."

"As to how?" asked Uncle Wiggily, speaking like a moving picture actor ,because his pink nose was twingling very fast just then.

"Well, I think it would look beautiful decorated with autumn leaves," went on the muskrat lady. "True, it is a little late for the best leaves, but I think you may be able to find a few that are colored red, purple, golden and brown."

"I shall do my best, Nurse Jane," answered the bunny, with a low and polite bow of his flippity floppity ears. "Off to the woods I shall go and bring you back some leaves to decorate the hollow stump bungalow for Thanksgiving."

No sooner said than done, as you may have read in story books. The bunny gentleman went hopping across the fields and through the woods to a grove of trees which, as he well remembered, had been covered with the most beautiful leaves a few weeks before.

But, oh, dear! By this time Jack Frost and the North Wind had taken nearly every leaf off the trees, and there were only bare branches tossing to and fro, like fairy arms waving to the sky.

On an oak tree, however, there were some wonderful brown and glossy leaves, for an oak tree holds its leaves longer through the winter than do most trees.

"I shall pick some brown leaves for Nurse Jane, anyhow," thought Uncle Wiggily. So he gathered several of these and then, looking down on the ground, he saw some red leaves, some purple ones and some of golden yellow. These had fallen from the maple trees.

"Well," said the bunny rabbit gentleman to himself, "if I can't pick colored leaves off the trees, I can pick them off the ground," and this he did.

Uncle Wiggily gathered red leaves, purple leaves and golden leaves, and these, with the brown ones from the oak tree, made a beautiful garland for the bungalow.

All of a sudden, though, as the rabbit stooped to pick up a leaf that was crimson and yellow, a puff of wind blew it away from his paws.

"Ah, you are a little flyaway leaf!" laughed the bunny. "You want me to chase you and play tag with you, it seems! All right, I'll do it!"

So Uncle Wiggily skipped after the runaway leaf, that was colored crimson and yellow. And, being a good hopper, as most rabbits are, Mr. Longears soon caught the flyaway leaf and placed it with the others.

"Now to hop home to Nurse Jane, and help her decorate the bungalow for Thanksgiving," said the bunny gentleman to himself, as he twingled his pink nose once more.

On and on he hopped with his crimson leaves, his golden leaves, his purple leaves, and his brown leaves. On and on, over the fields and through the woods, the wind blowing on his whiskers.

Just as the bunny gentleman was hopping over a big stone, all of a sudden, from the other side of the rock popped out the Bob Cat with his silly little tail and the tassels on his ears.

"Good day to you, Uncle Wiggily!" barked the Bob Cat.

"Good day? Bad day I guess you mean," said the bunny gentleman, beginning to feel a bit nervous.

"Well, a good day for me, perhaps a bad one for you!" laughed the Bob Cat. "I am going to nibble you!"

"Dear me!" though Uncle Wiggilyq. "How can I stop him?" Then he felt a puff of wind on his pink nose, the bunny rabbit did, and he thought of the flyaway leaf he had chased.

Suddenly letting go of a golden leaf he held, Uncle Wiggilly let the wind blow it along the ground and then the rabbit cried:

"Oh, Mr. Bob Cat, before you nibble me would you please run after that flyaway leaf and bring it back? It's for Nurse Jane to decorate the house."

"All right. I'll get that leaf and then I'll nibble your ears!" snarled the bad chap. On and on he ran after the flyaway leaf, which the wind blew ahead of him. The Bob Cat had to run very fast to catch the leaf. And no sooner had he handed it to Uncle Wiggily than the bunny let go of a red leaf which the wind blew away.

"Oh, Mr. Bob Cat, before you nibble me, please chase after that leaf!" begged the rabbit. "It's for Nurse Jane."

"All right, but it's the last one I'll chase for you!" snarled the bad chap.

"I hope it is, chuckled Uncle Wiggily. And it was, for the wind made such a flyaway of the red leaf, that the Bob Cat had to run two miles after it. And while

On and on he ran after the flyaway leaf.

the Bob Cat was chasing the leaf, Uncle Wiggily ran safely home to the bungalow and Nurse Jane, with the other leaves.

"Oh, how beautiful!" murmured the muskrat lady.

"Autumn leaves are good for something else than decorating bungalows," laughed the bunny. "They fly away and save ears."

And now, if the pin cushion doesn't stand on its head and shake all the needles out on the floor, I'll tell you next about Uncle Wiggily's Thanksgiving.

SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ-destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.—Advertisement.

Burton Heights' Opening Goes Over With Many Sales to Home Seekers

La Crescenta was accorded a definite place on the map of southern California Sunday, when the big subdivision known as "Burton Heights" went over with a bang.

Wilson & Burton and Twining & Myers, who are all interested in this property, had advertised the opening with a big barbecue, which was in the capable hands of Joe Romero.

Early in the morning the boulevards on the west side of the lots was black with automobiles. about fifty salesmen and women were on hand to take care of the crowds, which were all that were expected. All of the frontage on Pennsylvania avenue was disposed of and a number of inside lots.

This property is to be handled by a number of the local realty brokers.

Subdivisions Sold Out

Two other subdivisions were not only opened up, but sold out before noon Sunday. Mark S. Collins, well-known subdivider, opened a tract of thirty-five lots on West Piedmont. Buyers brought out tents to camp on their prospective lots, but many of them were, however, disappointed, the property being sold out by 6 a. m. The disappointed buyers were taken over to a second tract owned by Mark Collins, consisting of thirty-two lots, which was opened at sunrise. These lots lasted until 10 o'clock, the buyers standing from four to six deep on each lot, hoping to be the lucky one. However, it was a case of first come first served. Numbers of these lots were put up for immediate resale.

The congregation of the Episcopal church was not quite as large as that of last Sunday, but the number of Sunday school members was increased. The Sunday school is divided into two classes, called the Red Birds, and the girls, under the name of Blue Birds. There is a happy rivalry to see which of the birds wins in bringing the larger number of new pupils into the school. The losing class will, at the expiration of a set time, give a party for the victorious birds. Dr. Noble of Pasadena preached an interesting sermon on "Christmas in Our Midst." His sermon was well delivered and held the devout attention of the congregation.

Entertains Niece

Mrs. Mark Collins had as her house guest over Thanksgiving her niece, Miss Mary Townsend Hobson, an accomplished vocalist and pianist from Sacramento. Mrs. Collins entertained with a dinner party.

The dance given by the La Crescenta Improvement association on Saturday, for the benefit of the fire truck, was not such a financial success as it might have been had the weather been more agreeable. However, there were just enough present to have a good time, especially in the Paul Jones, ably called by Dr. Nettleton. A small sum was netted for the fire truck equipment.

UNDER INDICTMENT

NEW YORK, Dec. 4.—Harry Foley, secretary to E. W. Edwards, when he was governor of New Jersey, four New Jersey brewers and four brewery companies were indicted on five counts charging either bribery or attempted bribery, handed by the federal grand jury yesterday. The names of the other individuals named are: Edward Butler, George Seeber, Harry Keller and Herbert Katz. The brewery companies are: Peter Bridt Brewing company, Peterson Brewing and Malt company, and the Rising Sun Brewing company.

At least four main classes or kinds of human blood are now known to surgeons.

Growing Pains—Problems.
Our Winter Rains.
An Able Economist.
Cancellation of Debts.

By Gil A. Cowan

Los Angeles is having growing pains. Not to say that Glendale hasn't got 'em, too.

Yep, the grown-up girl wants to dance all night and when she is stopped—well, Los Angeles is nothing more than a provincial village in the eyes of its film luminaries.

Then Los Angeles wants to get a goodly supply of power and immediately it is the center of a fight, precipitated by the power corporations, which want to see the city grow in accord with their own plans.

Its sewage system, its city plan, its police—all are problems for Los Angeles.

Glendale can sit by, enjoy the show and profit thereby.

Our middle western friends are enjoying snow and slush.

Here in Glendale we have nothing but a little rain to contend with in the winter season.

And how welcome the rain comes. Why, it supplies us with the water of life. It laves our dusty city with a pleasant downpour which does not even interfere with the pursuit of business or pleasure.

Had we poetic license it would be a privilege to write of rain. But of snow and slush we could not say much.

Allied reparations provide an international topic on which few are qualified to speak. However, this writer believes that one of the foremost American economists is Senator Reed Smoot of Utah, whose views are set forth in a recent issue of the Christian Science Monitor as follows:

"The article in the Christian Science Monitor of November 7 on the subject of 'Allied Debts and Reparations,' by Walter W. Head, president of the American Bankers' association, has been brought to my attention, and I deem it proper to express my thought on this question. My view is quite at variance with Mr. Head's.

"In reference to the debts of various European nations due the United States, it is my opinion that these debts should not and will not be cancelled 'as America's contribution to the general allied cause.' This country has already given its contribution to that cause in full measure. It unstintedly poured out its manhood and its money, bringing complete victory to the Allies. What further contribution should anyone expect or desire?

* * *

"Mr. Head speaks of those who believe that cancellation is a necessary step to prevent political and economic catastrophe abroad. On this I would say that the first thing for the European peoples to do is to begin a reconstruction of their own before seeking assistance from us and to get rid of their bitter hatreds and enmities.

"In this article it is stated that the writer recognizes 'the possibility that we may be able to win concessions from Europe in the way of restoration of political and economic stability, which may warrant a recasting of the amounts due.' The phrase, 'a recasting of the amounts due,' sounds ominous, and conflicts directly with the action already taken by Congress in the establishing of the Debt Funding Commission. This commission has already functioned, in so far as Great Britain and Ireland are concerned. As to the other nations, none of them has, as yet, taken definite action with reference to these plainly just obligations. The duties of the Debt Funding Commission are clearly defined in the law, and it is my view that there exists no reason why the debts should be recast or modified in any way. There never was, from the time these loans were made, any understanding or intimation on the part of this government that there was any intention to make such concessions. I am confident that this is still the feeling on the part of Congress and of the large majority of the people of this country.

* * *

"I observe that Mr. Head thinks that a recasting of the balances due us from foreign governments might restore or enhance our foreign market. The profit on our foreign trade does not nearly approximate the amount of interest we should be receiving on these debts, in round numbers reaching to $12,000,000,000. Our export trade is only 8 per cent of our total commerce, and I scarcely think it would be increased perceptibly by the cancellation or recasting, or lost by our failure to cancel or recast. Also, I do not think the loss of this trade, as Mr. Head states, would result in lowering our standard of living. I do know that our trade balance has been very much in our favor, and is in striking contrast to its condition following the passage of the Underwood tariff law, when the trade balance against us amounted to over $50,000,000 per month.

"As to Mr. Head's proposal that the United States should have a representative with official standing on the Reparations Commission, but that 'we should not necessarily be bound by any agreement which may be proposed,' Secretary Hughes had in mind an American member when he proposed an international commission of experts to determine Germany's capacity to pay. That commission, if it had been adopted as proposed, would have had no power beyond that of ascertaining the ability of Germany to pay reparations.

"As I have stated, the Debt Funding Commission has its duties clearly defined, and has thus far adhered to them. Those duties are to effect definite methods of payment of the amounts due us with interest as provided by law."

Southern California

Killed in Wreck

SANTA BARBARA, Dec. 4.—The death of Mrs. Frances Tapie, formerly of this city, when her neck was broken in an automobile accident near the Careago Ranch, makes the third such death in Santa Barbara county in less than a month. Five other passengers in the automobile, which turned completely over, were unhurt.

The accident occurred at 1 a. m., when the occupants were on their way home to Santa Maria from this city. Joe Tapie, husband of the dead woman, was driving the car. Slippery pavement, caused by a light rain which was falling at the time, is said to have caused the accident.

To List Visitors

PASADENA, Dec. 4.—A comprehensive scheme for registering visitors in Pasadena from other cities, and the compilation of a directory of former residents of other states living in this city, has been started by the local Chamber of Commerce. The plan calls for the creation of a mammoth information bureau that will operate through the entire year 1924, during the celebration of the golden jubilee.

Headquarters for this undertaking will be maintained in the Chamber of Commerce building, and all Pasadenans who have come here from other states will be asked to register first. Following this the register will be open to all persons coming to this city.

To Guard Border

SAN DIEGO, Dec. 4.—Preparations are being made by the sheriff's office to meet the influx of American drug addicts, vagrants, criminals and race-track hangers-on from Tia Juana, following a report that Lower California authorities plan to deport about 200 undesirables.

Mexican officials failed to confirm the report. The word reached deputy sheriffs at the border, however, from a number of persons living on the Mexican side.

It is expected that the deportees, upon entering the United States again, will be placed under technical arrest, questioned as to their homes and occupations, and given a chance to leave this country.

Ask Freight Cut

ANAHEIM, Dec. 4.—Formal application to the Santa Fe, Union Pacific and Southern Pacific officials for reduced rates was made Monday by the local Chamber of Commerce traffic committee in its campaign to secure terminal rates for transfer of freight from one railroad to another in this city.

Members of the committee point out that Anaheim is one of the five cities in Southern California served by the three transcontinental lines. The other cities served by the three transcontinental lines. The other cities served by the three roads are Riverside, Pasadena, Los Angeles and San Bernardino.

The Santa Fe and the Southern Pacific lines are now connected by spur tracks, but under the present arrangement, freight loaded for Fullerton on the Southern Pacific tracks must be shipped to Los Angeles and back to Fullerton.

Dies From Shock

POMONA, Dec. 4.—Although a plunge five stories down an elevator shaft to the basement landing below failed to break any bones, Roy Cowlin, 30, an electrician, died six hours later from the shock and possible internal injuries.

Cowlin fell through the shaft of the new First National bank building, and died in a local hospital six hours after the accident. Physicians declared that he did not break a bone in the fall, but the shock was responsible for his death.

Highway Improvement

PASADENA, Dec. 4.—Plans for making the Foothill boulevard one of the best highways in Southern California are under way by the Foothill Boulevard association, it was announced at a meeting of the association held at the Hotel Maryland. Delegations were present from all the cities between San Bernardino and Santa Monica, and sentiment was unanimous in favor of steps being taken at once toward the accomplishment of the contemplated improvement program.

Would Beat Train

POMONA, Dec. 4.—Driving upon the tracks in an effort to "beat" an approaching Southern Pacific train at Puente, only to have his automobile smashed to splinters after he, with the other occupants, had jumped to safety, was the exciting experience of Edwin Snowden, of 950 East Third street. Others in the car were Mrs. Snowden and Miss Velma Snowden, and H. L. Smith and two sons, Clinton and Litell, 884 Grand avenue.

Thinking he had time to beat the train to the crossing, Snowden drove his car onto the tracks. The motor stalled and attempts were vainly made to push it off the line. Panic-stricken, all the occupants jumped. A few seconds later the auto was thrown from the pilot of the engine a hundred yards down the roadbed a mass of twisted steel and wood.

Bulk of the rubber-growing industry has within recent years shifted to Malaysia.

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health, with Key to the Calories"

TUBERCULOSIS

Yeserday I gave you a little history of the Christmas Seal Sale, the money from which goes to help eradicate that terrible (but preventable and curable) disease tuberculosis. I gave you some facts about tuberculosis, among them the fact that it is caused by a specific germ known as the tubercle bacillus.

Perhaps you have read some place that germs are not the cause but the effect of disease; that they are in the nature of scavengers which come after the disease is started. This is not true. It is true that there are scavenger germs; however, there are also germs which do not come after the disease is started but which directly cause certain diseases. Among these diseases so caused, I will mention a few; tuberculosis, diphtheria, infantile paralysis, pneumonia, gonorrhea, syphilis, typhoid fever.

The people who write that germs are not the cause but the "effect" of disease know nothing of the science pertaining to the human body. The falsehood they promulgate can do a great deal of harm, and cause untold sickness and death—for it would make those who are suffering and those who are caring for infectious diseases, careless.

If the statement that germs are not the cause but the effect of disease were true, then there would be no need for quarantine laws, or laws prohibiting diseased persons handling food. There would be no need for sterilization in operations. There would be no need for sterilization in maternity cases. Can you see the havoc such teachings, if accepted, would cause?

We all know that in tuberculosis and many other infectious diseases there usually has to be some other factor beside the specific germ causing the disease. Anything that lowers the body resistance will lessen the curative powers of the tissue so that the infectious germs, if they do gain access to the tissues, are not destroyed so readily.

Let us take the specific case of these false teachings in relation to tuberculosis. An active tuberculosis case may expectorate from a few to billions of tubercle bacilli a day. Pottenger states that it is not unusual for them to expectorate several millions a day. Some patients will cough and expectorate for months and sometimes years. If these patients are taught that their expectorations are not dangerous, can't you see the far-reaching evil effects?

It is estimated that about 10 percent of the cattle in the dairy herds have tuberculosis. If it is taught that these germs, which may contaminate the milk, are not dangerous, can't you see the far-reaching evil effect of this also?

One of the reasons cited by these misguided teachers that the tuberculosis germs, for instance, are the effect and not the cause of the disease, is the fact that the germs are not found in the sputum in the early stages of the disease. Now, the reason they are not found in the early stages is because the tissues have not yet broken down, so that the germs can be coughed up. They are there—that is, if the person has the disease. That is an established fact.

In tuberculosis, especially, lowered resistance is apparently necessary for the germs to multiply sufficiently to gain a foothold. You all know the causes of lowered resistance. The cause which I emphasize most in our column is the lowered resistance due to an imperfect diet—one not containing the elements necessary to build up the tissues.

The parable of the sower has been used to express the relationship between the infection from tuberculosis and the human body.

Some seeds fell by the wayside and the birds came and devoured them. (The germs do not get into the body, but are killed by the sun and sterilization.) Some seeds fell upon stony places. (The tissues are very resistant and the germs are destroyed.) Others fell upon thorns and the thorns grew up and choked them. (The germs fell and grew, but the protective forces of the body walled them off and protected the system.) But others fell on good ground, and yielded fruit, some a hundred-fold. (The germs fell where there was lowered resistance from some cause—most frequently from mal-nourishment—and Nature could not overcome them.) He that hath ears, let him hear.

Have you bought your Christmas Seals yet to do your little share in eradicating tuberculosis? Next week I'll have more on tuberculosis.

Heart and Home Problems

By MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: Here comes a refined woman of fifty years to your column to ask advice.

I am a widow who is financially independent, but so alone in this world. I am genuinely in love with a widower of sixty, out of town, who professes to love me, but is so jealous without a cause.

I met this man three years ago and for two years he has talked love and when we will be married, but will not set any time. He has even talked of where we will live.

I was to be married to an excellent gentleman when I met him, but sacrificed our acquaintance for the love of this man. He is in good financial standing and has a good home of his own. He is alone and has a housekeeper. What do you think is the cause of his delay? Advise me what to do. Let him go or wait?

MARY M.

It is impossible to guess the man's cause for delay. It seems to me, however, that he is selfish, and inconsiderate of you since he is so reluctant about setting the time for marriage. Since you have been betrothed for two years and he is still undecided about the time for marriage, it seems to me you ought to come to an understanding about the matter or give him up. It is not fair for him to claim you and yet deny you the close companionship of marriage.

* * *

Dear Mrs. Thompson: I am a girl nearly fourteen years of age. I like a certain boy very much, who is about two years older than I. I have been wondering if he really cares for me. He treats practically all the girls the same, although some say he treats me better than others.

At times it seems he is just crazy about me, and then again it seems as though he cares very little for me. He is of the joking type and always says funny things which help to attract the girls.

He attends the same school I do and is in all my morning classes, during which time I am treated kindly by him. He has written me many notes, a few of which he has requested I answer as soon as possible.

In my home-room he treats me especially well, and it seems that lately he will do almost anything for me in spite of the watchful eyes which are upon him. At first he didn't seem to care to have anyone see him do anything for me.

He has asked me for my picture and my ring. Do you think he cares for me? BROWN EYES.

The boy seems to be interested in you, but until he asks to call on you, or take you places, you may be sure that he does not care to any very great extent. I would not advise you to give him your picture and ring.

* * *

Dear Mrs. Thompson: I am a young high school girl, and am considered popular among a large circle of friends. These friends, however, are mostly girls. I have never craved young men's society until lately, when I went with a young man whom I liked very much. This young man seems to be interested in me and I wish very much to hold his attention. Please give me some advice. I am considered good-looking and talented in music, have pretty clothes and am very studious.

SINCERITY.

Just be yourself and do not make the effort to hold the young man's attentions. Unless he cares for you as you are, it is useless to struggle for his affection. Simply believe in yourself enough to see no reason why the young man should not care for you.

BEAUTY CHATS

by EDNA KENT FORBES

ANSWERED LETTERS

Virginia C.:—Faulty elimination is a frequent cause for oiliness of the scalp or skin, and a correction of this will bring about a healthy condition of the hair. Use a tonic in which there is some alcohol, as this eats up the oil; although you should not continue this for too long a time, as there is danger of swinging to the opposite extreme — that of an unhealthy dry scalp.

Shampoo the hair frequently and use very cold water in rinsing as this stimulates the circulation. Sun and air are good for such scalp conditions. To get the full benefit of such treatment, part the hair into strands so the sun can get to the scalp.

Oily Nose:— A small chamois may be used to remove oiliness from the skin, leaving it in a condition to retain powder. The oily nose, like the oily scalp, has its origin most likely in the digestive tract, so you will have to correct the cause to get rid of the annoyance.

Jackie:—Consult the dentist about this trouble with your teeth.

Little Blonde:—The honey almond preparations are used mostly for the hands, as they soften the skin and bleach slightly, in addition to which they dry off the skin very quickly without any trace of oil. They are not used for nourishing the tissues, so you will not gain in substituting them for a good cream for the face.

O. B.:—Cocoa butter comes in a cake which you heat slightly and rub over the palm of the hand to use for massaging. It is a heavy and very nourishing oil, so it takes very little of it.

Miss L. B.:—Massage olive oil into your thin wrists and develop them through vigorous exercise.

Worried: — Hangnails come from extreme dryness of the cuticle about the nail. If you keep this from growing over the nail, and counteract this dryness by rubbing oil into the base of the nails, there will be no hangnails.

Young Housekeeper: — After you are through with your kitchen work, wash your hands and rinse in cool and then cold water, after which rub into the skin any of the honey almond lotions, or a mixture of equal parts rose water glycerine, and witch hazel. A cut lemon is useful for removing stains from the skin made by handling fruit and vegetables.

Fatty:—It would take too much space to print full instructions for reducing, but I shall be glad to mail this information to you if you request it and send a stamped, self-addressed envelope.

Alyce:—Stray white hairs at 15 years are merely dead ones which will drop out, but it shows that the scalp is in need of some stimulating treatment. A daily massage until there is a glow from the increased circulation will likely be all that is needed.

Tomorrow:—Attractive Arms

All inquiries addressed to Miss Forbes, in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped envelope must be enclosed with the question.—The Editor.

With the Women of Today

By MRS. LILIAN CAMPBELL

Mrs. Alice Paul, vice-president of the National Women's party, and Mrs. Dudley Field Malone, formerly Miss Doris Stevens, are at national headquarters at Washington discussing old plans and making new ones. A comprehensive program is planned for the coming year.

CHILDREN ON THE FARM

When parents in the farm home have more leisure to enjoy their children the more subtle and fundamental aspects of their education will become a reality, Julia Wade Abott, associate director of the American Child Health association, said in an address before the American Country Life Association recently.

Fresh air, sunshine, clothes that give freedom to run and play, other children with whom to play, regular meals and the right kind of food are fundamental needs of every young child, she declared, but the home, as the guardian of the child, must give the child a food as necessary as that fed for bodily needs.

"We wish to think of the little child on the farm in terms of activity—doing, thinking and feeling—busily engaged in educating himself with the help of those about him.

"It is natural for young children to want companionship. Too often the young child 'tags after' his mother as she goes about the indoor routine of the farm. The country child as well as the child in the city needs the sand box, swing, and his own little garden to keep him busy and happy in the out-of-doors."

WARNS GIRLS FROM HOLLYWOOD

At this time of the year numbers of film struck girls make their way to Hollywood. In spite of the decrease in studio activity and the standardization of film acting as a business, thousands of girls are already in the city, hoping for a chance to make good in pictures.

Many of the disappointed ones are working in cafeterias, telephone exchanges and other occupations and many are out of work and penniless. The National Board of the Y. W. C. A., sponsor for the Hollywood Studio Club, is able to accommodate only twenty girls at a time. Will H. Hays has raised $120,000 to help the National Board, of which Mrs. John D. Rockefeler, Jr., is a member, in an effort to take care of these film smitten girls, but they cannot all be accommodated. Newspapers, pulpits and welfare associations in other states are being appealed to to publish the truth of the situation—that the chances for any of these girls to get even in the inside of a move studio are practically nil.

A Daily Reader: "I would like a pickle recipe calling for cauliflower, string beans, onions, beets, peppers and tomatoes. Also kindly tell me if it is safe to use an aluminum kettle for boiling vinegar."

Answer: I think this is the recipe you want: **Mixed Pickles:** Two quarts green tomatoes, two quarts red tomatoes, one quart small onions, one head of cauliflower, three green sweet peppers, three red sweet peppers, one head of cabbage, two tablespoons of mustard, one quart of cucumbers, one and one-half cups of sugar, one cup of flour, two quarts of boiling vinegar. (You can substitute other vegetables such as beets and string beans for some of these vegetables if you desire.)

Slice the tomatoes and peppers (removing pepper seeds); peel and slice the onions and cucumbers, chop cabbage and separate the cauliflower. Put all the vegetables into a brine made by combining one-half cup of salt and five quarts of cold water; let stand in this brine for twenty-four hours, then drain well and steam till tender. If you have not a regular steamer, improvise one by sinking your colander half way into a deep kettle which contains boiling water; let the water boil under the colander, keeping a pot-cover over the colander.

In the meantime, mix the spices, sugar and flour together and add just enough water to form a paste; add this paste to the boiling vinegar, thin the mixture with one pint of hot water, and cook till well thickened. Add the steamed vegetables to this dressing and mix before putting it into hot, sterilized glass jars and sealing at once. No, it is best to use an agateware or enamelware pot rather than an aluminum one.

Mrs. F. M.: "Can you tell me how to remove rust from the oven and top of my gas range? Everything I use to blacken it with, burns off."

Answer: Rub the rusty parts first with kerosene (of course the stove must not be lighted while this is going on) and then rub with steel wool which is well moistened with linseed oil. In extreme cases, the oiled steel wool may be dipped in powdered pumice stone. A light, superficial film of rust can be removed by a cloth of heavy wool which is saturated with linseed oil; follow by wiping with a dry piece of heavy wool cloth to remove the surplus oil.

Bride: "What is a 'slumber throw' that people are talking so much about?"

Answer: A Slumber Throw is a light-weight, small-size, all-wool blanket (some of them are hand-woven and look like homespun) used to cover a person who wishes to lie down for a little while in the daytime for a rest on couch or bed. It is never made up in a bed.

Kellogg's Bran is nature's relief from the terrors of constipation!

Never make light of constipation or any one of its symptoms—there is no telling what disease you may be heading into! The one thing to do—IMMEDIATELY—is to fight constipation to the last ditch! Not with pills or cathartics; they cannot give you lasting relief! Not with foods with a low bran content; they do not have the bran-bulk to do the work!

What you need, what will give you permanent relief is Kellogg's Bran because it is ALL BRAN! Kellogg's is scientifically prepared to relieve constipation. It will relieve the chronic case or the mild case. You need it, your family needs it!

But, you must eat Kellogg's Bran regularly—each day! At least two tablespoonfuls; in chronic cases this amount with each meal! And, eating Kellogg's Bran is a delight rather than a hardship. It has a delicious, appealing nut-like flavor that wins the most fastidious appetite.

Every day when you eat Kellogg's Bran as a cereal, sprinkled on your favorite hot or cold cereal or cooked or mixed with hot cereals, think of the health every spoonful contains for you! Think how Kellogg's Bran is sweeping and cleansing the alimentary tract; how it is driving out the toxic poisons and freeing your system from dangers of dreaded diseases! Your physician will recommend it.

Kellogg's Bran is extra-delicious made into countless bakery batches. Recipes on every package.

All grocers sell Kellogg's Bran; it is also obtainable at first-class hotels and clubs in individual packages. Ask for it at your restaurant.

EAGLE ROCK

KIWANIANS PLAN TO LAUNCH CLUB

Expect Large Membership; Local Representatives Will Be Present

When a group of some thirty-five representative Eagle Rock business men meet at the Women's Twentieth Century clubhouse, on Thursday, December 6, it will be to announce their definite organization as the Kiwanis club of this city.

This consummates a movement that has been quietly on foot for some weeks, sponsored by the Kiwanis club of Burbank. It is probable that the next step will be affiliation with the international organization of that name.

The officers of the newly-formed club are: Emil Swanson, president; Donnell G. Montgomery, secretary; Clarence L. Suits, treasurer; and a directorate comprising Dr. H. B. Crawford, Rev. William Middlemass, A. A. Herrman, C. H. Goodale, Thomas Yutz, A. S. Wilson and Ted Fisher.

Representatives from the Glendale, Burbank and Los Angeles Kiwanis clubs will be present at the gathering, at which it will be announced that over thirty-five members have paid up, eleven have expressed themselves in favor of entering the organization and twenty more are in prospect, a total of approximately seventy-five, which is considered a very good showing.

P.-T. A. to Meet

All women of this community are invited to be present at the Parent-Teacher association of the Eagle Rock school, to be held 2:30 o'clock Wednesday afternoon, December 5, at the schoolhouse, announces Mrs. J. C. Reiter, president.

Those who bring children will find girls on hand to take care of them. Mrs. R. J. Lippold is arranging a splendid musical program, and there will be in addition the regular monthly class program, in charge of Miss Harding, Mrs. Mattox and Miss Booker.

Tea will be served under the direction of Mrs. Albert C. Bailey.

C. W. Preston, principal of the Eagle Rock school, has worked out a change of program in the various classes, which he announces as follows: Mrs. Koen is taking charge of the art department, formerly in charge of Mr. Hegge; Miss Booker is taking Mrs. Koen's class and Miss Spencer that formerly in charge of Miss Booker.

This change was made necessary by reason of the transfer of Mr. Hegge to the Ninety-fifth street school, Los Angeles. Mr. Brooks is the new physical director at the Eagle Rock school.

Annexation Vote

Another splash into the chill waters of annexation may be expected December 14, when residents of the Rockdale section of Los Angeles county are to vote "to be or not to be."

There is the usual riot of conflicting emotions from the district it is reported, as the "zero hour" draws near.

Suction Cups

HOW "Western Giant" Cords PREVENT SKIDDING!

In your tires rests your safety!

No matter what precautions you take to prevent skidding, you cannot entirely succeed, unless the tread of your tire is specially designed to combat the dangers of slippery pavement. Look at the tread of the Western Giant Cord! Note the action of the cups, bars and edges. This combination gives you the SUREST NONSKID tire obtainable.

Try Western Giant Cords on your rear wheels. Experience for yourself the security these tires will give you during the winter months. Remember, too, they cost less than other fine tires.

Set Date for Hearing Business Zone Pleas

December 20 at 10 o'clock was the time set last night by the City Council for the hearing of the protests against the establishing of the west side of Verdugo road between Opechee Way and Wabasso Way as a commercial district.

This is the district where an ex-service man seeks to establish a filling station, but which members of the Council seek to retain as a residential district for the city, stating that they believe it a mistake to allow business to enter into one of Glendale's most beautiful drives.

SUNLAND

LAUNCH CHAPTER OF WOMEN'S CLUB

Organization Names Heads To Direct Activities of Coming Year

A Sunland chapter of the Woman's club has been organized with Mrs. C. Buck as president and Miss Catherine Crews vice-president. Other officers elected at the meeting held for that purpose Tuesday at the Monte Vista school auditorium are: Second vice-president, Mrs. Clare Schuett; recording secretary, Mrs. Kneudsen; corresponding secretary, Mrs. B. Hampton; treasurer, Mrs. M. Rupel. Auditor and other posts will be filled and directors elected at the next meeting. A constitution and by-laws will be drawn by a committee consisting of Mrs. E. W. Morgan, Mrs. Rupel and Mrs. George B. Shaffer.

Mrs. M. V. Henry of the Glendale Tuesday Afternoon club was present and assisted in organizing the Sunland club and in preparing an outline of the constitution and by-laws.

Following the business session tea was served in the domestic science room.

Want Gas Service

A special mass meeintg has been called by the Sunland Chamber of Commerce for December 25, at which time the subject of gas and how to get it will be discussed. An effort will be made to secure gas service by way of Roscoe through the Hansen Heights tract. A committee of three, C. C. Campbell, J. C. Marsh and Homer Rice from the Chamber of Commerce, has been appointed to make an attempt to get street lights also.

The regular meeting of the Monte Vista Valley Improvement league was shortened to allow the members to participate in a surprise party on Mrs. George B. Shaffer, one of the most active members, in honor of her birthday.

Before adjourning the league adopted a resolution, suggested by E. W. Morgan, limiting the scope of the league's activities to the territory between Palm avenue, Tujunga, and Third street, Sunland. Heretofore the league included all the territory between the summit east of Tujunga to the wash west of Sunland, but members have since come to feel that they should concentrate their efforts on the territory centering at Walnut drive and Michigan avenue, to be known as Valley Center. The league will continue to work with the Tujunga and Sunland Chambers of Commerce for the good of the entire valley.

A petition has been prepared by the committee on gas and lights to be circulated among the residents who are anxious to get gas service in the valley. The Improvement league will work with the Sunland Chamber of Commerce on the gas campaign. A big public entertainment will be given in the near future by the league either at the Garden of the Moon, Tujunga, or a Sunland hall.

Install Radio Set

Mr. and Mrs. Noel McVine have installed a powerful radio receiving set in their home and have enjoyed programs from stations as far away as Portland, Ore.

H. W. Savage of Berkeley has been visiting J. C. Smith of Sunland. Mr. Savage said that there are only about 25 houses being built in the district recently burned over by the disastrous fire at Berkeley.

Mr. and Mrs. Ira S. Towle of Sunland Lodge recently entertained at dinner for Mr. and Mrs. E. W. Haw of Glendale and Mr. and Mrs. Arthur Haw and son Kenneth of Eagle Rock.

Mrs. Homer Rice recently entertained her father and mother, Mr. and Mrs. Daniels of Los Angeles and John Bergman.

Miss Dorothy James of Los Angeles was the week-end guest of Miss Catherine Crews.

ACTION STARTED TO SECURE SITE

Institute Suit to Condemn Ground for $2,000,000 Veterans' Hospital

Institution of condemnation proceedings on the San Fernando site for the Veterans' hospital now practically ensures the fruition of this big project, which involves a total expenditure in excess of $2,000,000.

On December 1, according to dispatches from Washington, D. C., General Hines, director of the Veterans' Bureau, notified Senator Oddie that he had instructed his representatives in Los Angeles to institute such proceedings and to push them to the earliest possible conclusion.

That condemnation proceedings are necessary is said to be because the Los Angeles appraisers put a valuation on the property so low that the owner refused to sell. While it is realized that location selected for the hospital will prove a big boost for the entire valley, indignation is expressed in many sections over the failure of the appraisers to recognize the worth of property in this vicinity.

Congressman Lineberger of Long Beach, who has been very active in his efforts to locate veterans' hospitals in Southern California, expresses himself as well satisfied that the project has developed from the conversational stage to a basis where ground for the big project has actually been chosen.

While condemnation proceedings are in progress, it is reported, surveys of the land will be made and preliminary steps taken to have all in readiness for actual construction to take place in record time.

$12,000,000 Year for Valley

San Fernando valley, "the granary of Los Angeles," or "the great market basket of the Pacific Southwest," as it is frequently called, is estimated to have produced during the year now closing $8,000,000 in field and orchard crops and $4,000,000 in poultry and dairy products, while many millions of this golden harvest have poured back into the land in investments of equipment and construction.

It was to this bounty of a beneficent providence that the San Fernando valley paid tribute this Thanksgiving day. In spinach, lima beans, sugar beets, alfalfa, potatoes, tomatoes, lettuce and, in fact, all the ground crops, it was a good year; in walnuts, citrus fruit and berries it was a good year; in peaches and apricots it was not so good, but that is the only exception to the year's prosperity, and even these latter crops were normal.

A well-handled market situation, moreover, enabled the growers to realize very satisfactory returns in most cases. Canneries ran full tilt all during the various seasons, with the exception again of the peach and apricot packs.

Many of these products of the San Fernando valley are at present on display in the window of Victor Girard's branch office at 811 South Hill street, where they are attractively arranged, revealing to thousands of passers-by the Valley's multitudinous and diverse products.

TUJUNGA

POST OFFICE IN BREIDT BUILDING

Landmark Made Famous By Sage of Green Verdugo Is Now Deserted

Tujunga's post office is now located in the new Breidt building on Sunset boulevard near El Centro street. The move from the original quarters on the opposite side of the street that have served for several years was effected the latter part of last week. Postmaster Halferty announces that the lobby of the office will be open until 7 p. m. to accommodate patrons of the lock box section. Several new boxes have been installed in addition to the ones already in use before the move was made.

With this move passes the post office steps made known to readers by John Steven McGroarty, although it is doubtful if many realize that the location and scenes presented in his writings were very real and touched with but little imagination, as far as their creation was concerned. The postoffice steps was a favorite meeting place of the Millionaires of Happiness and Contentment club and the characters of Mr. McGroarty's stories camouflaged by names such as "The Man Who Plays the Flute, The Man Who Reads the Papers," and others, who gathered there countless times in the past and enjoyed various discussions, just as chronicled in Mr. McGroarty's stories. The club is formed by members who find happiness and contentment in the quiet of the Tujunga hills and meets occasionally at the "Little Gray House in the Hollow," which is only another name given to his own home by Mr. McGroarty.
